BEEBE TOWN LIBRARY

BEEBE TOWN LIBRARY

WAKEFIELD, MASS.

This Library, established in 1856, is supported by taxation and by the income from trust funds (in 1910 the trust funds amounted to $7,000) and is for the free use of all residents of Wakefield. Temporary residents, by giving satisfactory references, will be gladly offered its privileges. The public reading room, also in the Town Hall building, is free to all.

APPLICATION BLANKS may be signed by any resident over ten years of age, but application by children under fourteen must be endorsed by parents or guardians.

CALL CARDS will be issued to all whose applications are satisfactory and thereon shall be recorded the date books taken are "Due" and "Returned." NON-FICTION call cards with special privileges will be issued to all requesting them.

If a call card is lost, it will be replaced in one week after notice has been given, or at once upon payment of five cents.

No book can be exchanged on the same day on which it is taken out.

MISUSE OF PRIVILEGES.—Two cents a day will be charged for books kept beyond the date "Due" as recorded on the card and in the back of the book. If any book is lost or materially injured, the person to whom it stands charged will be responsible for its replacement.

Books are supposed to be in proper repair and if found not to be so, the Librarian should be notified at once; otherwise the holder is liable to be charged for damages.

MODIFICATIONS of these rules which may be made at any time will be posted in the Library.

The Library will not be doing its whole work until every man, woman and child in Wakefield is looking to it for pleasure and information.

Record of Town Meetings

TOWN MEETING, MARCH 8, 1920

Meeting called to order at 7.45 o'clock P. M., by Moderator Clemons, who read the call for meeting.
On Motion of F. H. Emerson.

Voted: That further reading of the warrant with the exception of the Constables' return be omitted.
Constable's return then read.

Article 1. To act upon the reports of town officers as published.

On Motion by Thomas Hickey that reports of town officers as published be accepted.
Amendment by F. J. Henkel, that the portion of the town report, relating to the Municipal Light Plant be laid upon the table. Amendment was voted and original motion as amended was then voted.

Article 2. To choose all town officers not required to be chosen by ballot.

Voted: That a committee of five be appointed by the moderator to choose all town officers not required to be chosen by ballot.

Article 3. To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1920, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.
On Motion of A. H. Boardman.

Voted: That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money on and after January 1, 1920, in anticipation of the revenue of the financial year beginning January 1, 1920, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the revenue of the financial year beginning January 1, 1920.

Article 4. To determine how much money the town will raise and appropriate for General Government, Protection of Persons and Property. Health and Sanitation, Highways, Charities and Soldiers' Benefits, Education, Recreation and Unclassified Public Service Enterprises, Interest and Maturing Debt.

General Government

On Motion of Finance Committee.

Voted: That the Town raise and appropriate the sum of $18,915.00 for the purpose of general government, to be apportioned as follows:

Article 14. To see if the town will authorize the Treasurer, with the approval of the Selectmen, to issue bonds, notes or scrip of the town to an amount not exceeding $8,000.00 to provide necessary funds for carrying out any action voted under the preceding article, or what it will do about it.—Harry M. Wheeler and others.

On Motion of A. H. Boardman.

Voted: That the sum of $8,000.00 is hereby appropriated for the purpose mentioned in Article 13, and that for the purpose of providing for the payment for the extension of water mains in Main Street, Quannapowitt Avenue, Lakeview Avenue and Winnisimmitt Avenue in that part of the town known as Lakeview Park, as authorized by vote of the town under Article 13 of the warrant for the town meeting of March 8, 1920,the Treasurer be and is hereby authorized

with the approval of the Selectmen, to issue bonds or notes of the town of the aggregate sum of $8,000.00; said bonds or notes to be payable $2,000.00 in each of the years 1921 to 1924 inclusive, and to bear interest payable semi-annually, all particulars as to form, date of issue and sale of said bonds or notes to be determined by the Treasurer with the approval of the Selectmen. Unanimous vote.

On Motion of F. H. Hackett.

Voted: That this meeting stand adjourned to Monday evening, March 22, 1920 at 7.30 o'clock.

Adjourned at 10.10 P. M. Attendance 275.

ADJOURNED TOWN MEETING, MARCH 22, 1920

Meeting called to order at 7.45 P. M. by Moderator Clemons, Article 15 being in order.

Article 15. To see if the town will raise and appropriate the sum of $12,000.00 to be spent for additions and extensions of Water Gas Plant, as reported to Finance Committee, or what they will do about it.—John M. Cameron and others.

On Motion of L. P. Jordan.

Voted: That subject matter of Article 15 be laid upon the table until report called for under Article 26 be received.

Article 16. To see if the town will authorize the Municipal Light Board to transfer from the Operation Fund to the Construction Fund, whatever balance there may be in the former on December 31st, 1920, as recommended by Alonzo R. Weed of the Department of Public Utilities, or what it will do about it.—John M. Cameron.

On Motion of Finance Committee.

Voted: That the subject matter of Article 16 be indefinitely postponed.

Article 17. To see if the town will accept and allow the laying out by the Board of Selectmen as a town way of the private way between Main and Pleasant Streets now known at White Avenue.—Board of Selectmen.

The report of the Selectmen on laying out White Avenue was read by the Moderator.

On Motion of F. H. Hackett.

Voted: That the town accept and allow the laying out by the Board of Selectmen as a town way, the private way between Main Street and Pleasant Streets, and that the same be known as White Avenue.

Article 18. To raise and appropriate a sufficient sum of money to rebuild said White Avenue if the same is accepted as a town way or what it will do about it.—Board of Selectmen.

That the town raise and appropriate the sum of $1,700.00 for the rebuilding of White Avenue.

Article 19. To see if the town will vote and pass by-laws regulating the transportation of garbage and other refuse through the public ways in the town.—Board of Health.
On Motion of F. H. Hackett.

Voted: That the town accept and adopt the following amendment to its By-Laws.

Article 6, Sect. 9. No person shall carry or transport garbage, swill or house refuse in or through any public way or square in the town of Wakefield, unless duly licensed by the Board of Selectmen, upon such terms and conditions as said Board deem necessary for the health, comfort and convenience of the town.

Each violation of the provisions of this section shall be punished by a fine not exceeding twenty dollars.

Article 20. To see if the town will vote to authorize and direct the Board of Selectmen to dispose of the old school building in the Woodville District, by having it torn down and removed from the lot when the new building shall have been completed, or what it will do about it.—W. C. Robbins, Chairman.
On Motion of W. C. Robbins.

Voted: That the town authorize and direct the Board of Selectmen to dispose of the old school building in the Woodville district by having it torn down and removed from the lot when the new building shall have been completed.

Article 21. To see if the town will vote to construct a sewer in Lake Street from the corner of Maple Street to Broadway, and thence westerly on Broadway to the crest of the first water shed, and raise and appropriate money therefor or see what the town will do about it, and to see if the town will vote to issue notes or bonds to meet any appropriation made under this article.—Ernest E. Tyzzer and others.

On Motion of L. P. Jordan.

Voted: That the town construct a sewer in Lake Street as called for in the article and that the sum of $5,200.00 be appropriated therefor.
On Motion of A. H. Boardman.

Voted: That the sum of $5,200.00 is hereby appropriated for the purpose mentioned in Article 21 and that for the purpose of providing for the payment of constructing a sewer in Lake Street from the corner of Maple Street to Broad way, and thence westerly on Broadway to the crest of the first water shed as

authorized by vote of the town under Article 21 of the warrant for the Town Meeting of March 8, 1920. The Treasurer be and is hereby authorized with the approval of the Selectmen to issue bonds or notes to be payable $3,200.00 in 1921 and $2,000.00 in 1922 and to bear interest payable semi-annually, all particulars as to form, date of issue and sale of said bonds or notes to be determined by the Treasurer with the approval of the Selectmen. Unanimous vote.

Article 4

On Motion of C. H. Learoyd.

Voted: That so much of Article 4 as relates to appropriations for Sewer Department be taken up.

Voted: That the vote wereby an appropriation was made for sewer connections be reconsidered.

Amendment, that the appropriation for sewer connections be increased to $2,000.00 and an additional sum of $500.00 be raised and appropriated therefor. Amendment carried and original motion as amended was then voted.

Article 22. To see if the town will authorize the Board of Selectmen to cause the barn on the Wakefield estate to be torn down and use such of the materials thereof as may be desirable in the construction of a new barn and sheds on North Avenue for the Street Department and raise and appropriate the sum of five thousand dollars for aforesaid purposes to be expended under the direction of said Board or what it will do about it.—Board of Selectmen.
On Motion of L. P. Jordan.

Voted: That the town raise and appropriate the sum of $5,000.00 for the purpose set forth in Article 22 and that the Board of Selectmen be granted the authority referred to in said article.

Article 23. To see if the town will authorize the Board of Selectmen to dispose of any property including all buildings on the Wakefield lot not needed by the high school building committee in connection with the building of the new high school.—Board of Selectmen.
On Motion of F. H. Hackett.

Voted: That the Board of Selectmen be granted the authority as asked for under Article 23.

Article 24. To see if the town will vote and pass by-laws for the removal of snow and ice from sidewalks within such portions of the town as it may determine.—Board of Selectmen.
On Motion of F. H. Hackett.

Voted: That the following By-Law be enacted.

Article 6, Sec. 8. The owner or tenant of land abutting on the following named streets and ways:—to wit, Main Street, west side from Water Street to Avon Street, Main Street east side from Richardson Street to Crescent Street, Albion street, north and south sides from Main Street to North Avenue. North Avenue, east side from Albion street to Chestnut Street, Mechanic Street, south side from Main to Crescent Street, Lincoln Street, North side from Main Street to Crescent Street and Water street South side from Main Street to Boston and Maine Railroad, shall remove all snow and ice from the portion of the sidewalk adjoining such land within twelve hours after said snow or ice fell or was formed thereon, provided such ice may be made even and covered with sand or other proper material to prevent slipping, in lieu of being removed. Such snow and ice may be removed from the sicewalk to the street if left level. Each violation of the provisions of this section shall be punished by a fine of not more than ten dollars.

Article 25. To see if the town will vote to dispose of the town farm, or any part thereof, or what it will do about it.—Forrest A. Seavey.
On Motion of F. A. Seavey.

Voted: That the subject matter of Article 25 be referred to a Committee of seven, of which number, three shall be the Overseers of the Poor, and report at a future town meeting.

Moderator appointed the following committee:

Forrest A. Seavey, Albert W. Flint, J. William O'Connell, Willis C. Robbins, Hugh Connell, Albert W. Cate, George E. Zwicker.

Article 26. To hear and act upon the report of the Committee appointed under Article 28 of the annual warrant of 1919 in relation to the advisability of the sale of the Municipal Light Plant.

Committee report presented by W. V. Taylor.
On Motion of Mr. Dillaway.

Voted: That the report of the Committee and the recommendations therfor be accepted and adopted.
On Motion of W. V. Taylor.

Voted: That the town hereby instruct the Municipal Light Plant to purchase its gas as soon as contracts can be obtained which are satisfactory to a committee composed of said Light Board and the committee appointed under Article 28 of the March Warrant of 1919 and members added thereto.

Article 1.

Voted: That Article 1 be taken up.

Voted: That the report of the Municipal Light Plant as printed be accepted.

Article 27. To see if the town will raise and appropriate the sum of one hundred and fifty dollars to be added to the Park appropriation for the purpose of providing suitable places for skating.
On Motion of W. V. Taylor.

Voted: That the Park Department be authorized to use a sum not excceeding $150.00 for the purpose of providing suitable places for skating,

Article 28. To see if the town will raise and appropriate the sum of $250.00 for H. M. Warren, Post 12, G. A. R., to use in their observance of May 30, 1920.—Stanley B. Dearborn and others.
On Motion of W. V. Taylor.

Town Meeting, June 28, 1920

Meeting called to order at 7.50 P. M. by Town Clerk F. S. Hartshorne who read the call for the meeting.
On Motion of H. M. Dolbeare.

Voted: That the reading of the remainder of the warrant, with the exceptions of the constables' return be omitted. Constables' return then read, owing to the absence of the Moderator, the first business before the meeting was the election of the moderator pro tem. The name of John J. Round was placed in nomination and on motion of J. A. Meloney it was voted to proceed to ballot. Two ballots were cast and John J. Round received two votes and was elected Moderator pro tem, and was so sworn by the Town Clerk.

Article 1. To hear and act upon report of the High School Building Committee.—John J. Round.

A report of progress of the High School Building Committee was read by W. B. Atwell.
On Motion of G. A. Cowdrey.

Voted: That the report as read be accepted as a report of progress and placed on file.

Article 2. To see if the town will raise and appropriate the sum of $15,000.00 to pay bills already incurred by the High School Building Committee, and to provide funds for the further carrying on of the work.—John J. Round and others.
On Motion by Robbins, for Finance Committee.

Voted: That the town raise and appropriate the sum of $13,200.00 for the purpose called for in Article 2.

Article 3. To see if the town will authorize the High School Building Committee to purchase the lot of land on Armory street connecting with the High School Lot known as the Mullen property, and raise and appropriate $1,050.00 for that purpose.—John J. Round and others.

On Motion by Robbins for Finance Committee.

Voted: That the town raise and appropriate the sum of $1,050.00 for the purchase of a lot of land containing 5000 square feet as called for in Article 3.

Article 4. To hear and act upon the report of the War Memorial Committee.—Harry I. Thayer.

The report of the War Memorial Committee was read by Mr. H. I. Thayer. On Motion of H. M. Dolbeare.

Voted: That the report as read be accepted as a report of progress and placed on file.

Article 5. To see if the town will raise and appropriate the sum of $750.00 to be used for the erection of a Memorial Tablet, as a tribute to the Wakefield men who served and who lost their lives in the World War, the money to be expended under the direction of the War Memorial Committee.—Harry I. Thayer and others.
On Motion of Mr. Robbins for Finance Committee.

Voted: That the town raise and appropriate the sum of $750.00 for the purposes called for in Article 5.

Article 6. To see if the town will authorize the Selectmen to transfer from its Miscellaneous Fund, the sum of $250.00, the same to be added to the salary of the Town Accountant for 1920.—Harris M. Dolbeare and others.

A motion by the Finance Committee to indefinitely postpone was lost.
On Motion of H. M. Dolbeare.

Voted: That the town authorize the Selectmen to transfer from its Miscellaneous Fund, the sum of $250.00 the same to be added to the salary of the Town Accountant for 1920.

Article 7. To see if the town will raise and appropriate twenty thousand dollars ($20,000.00) for the School Department, for necessary repairs for the High School, or what they will do about it.—J. Lowe McMahone and others.
On Motion of Mr. Robbins for Finance Committee.

Voted: That the town raise and appropriate the sum of $16,000.00 for the purposes called for in Article 7.
On Motion by G. A. Cowdrey.

Voted: That this meeting be dissolved

Adjourned at 8.40. Attendance 85.

Result of State Primary held September 7, 1920

Town Meeting, December 13, 1920

Meeting called to order at 7.45 P. M., by Moderator Clemons. The call for the town meeting was read by the Town Clerk.
On Motion of Theodore Eaton.

Voted: That further reading of the warrant, with the exception of the Constables' Return be omitted. Constables' return was then read.

Article 1. To hear and act upon a report of the committee appointed under Article 28 of the warrant for the annual town meeting for the year 1919, relative to the Municipal Light Plant.

Report of the committee presented to the town and read by Moderator Clemons.
On Motion by W. C. Robbins.

Voted: That the report be accepted as a report of progress and that it be laid upon the table, until action is taken under Article two.

Article 2. To see if the town will vote to sell its municipal lighting plant, or what they will do about it.—Board of Selectmen.
On Motion of Finance Committee.

That the town sell its Municipal Light Plant, provided that a reasonable price can be obtained for the same.

A Motion by J. J. Round to have vote taken at certain time was withdrawn.

After a discussion of the question lasting until 9.35
On Motion of S. T. Parker it was voted to proceed to ballot.
On Motion of Theodore Eaton.

Voted: That at the close of balloting, and announcement of vote, the meeting stand adjourned until Monday evening, December 20th, at 7.30 o'clock P. M.

After the appointment by the Moderator of sufficient number of persons to take charge of ballot box and check list the vote was taken by a "Yes" and "No" printed ballot.

Polls were closed at 10.05 and the votes were counted with the following result.

Total number of votes cast 521, necessary for choice 348, "Yes" 310, "No" 211, and the motion was declared not carried.

Adjourned Town Meeting, Dec. 20, 1920

Meeting called to order at 7.45 o'clock P. M.

Article 2.

Motion by H. E. Clemons.

That the vote under Article 2 whereby the town voted not to sell the Municipal Light Plant be reconsidered.

After a short discussion Mr. Ells moved the previous question.

The vote on the question "Shall the main question be now put" being in the affirmative, the motion of Mr. Clemons was voted upon and declared carried.

The motion of the Finance Committee which is as follows:

That the town sell its Municipal Light Plant, provided that a reasonable price can be obtained for the same.

Mr. Robbins for Finance Commission asked permission of the meeting to withdraw that portion of the motion reading as follows:

"Provided that a reasonable price can be obtained for the same."

Objection being made, Mr. Robbins offered as an amendment that the words "provided that a reasonable price can be obtained for the same," be stricken from the motion.

Amendment voted in the affirmative.

Motion by S. T. Parker.

That the meeting proceed to ballot.

During discussion, Mr. Dean speaking to the subject, the previous question was moved by Mr. Brown.

Voted on the previous question was declared not carried.

Vote was doubted.

Mr. Brown's motion was then withdrawn by consent of the meeting.

On motion of Mr. Butler.

Voted: That the speaking time of Mr. Dean be extended ten minutes.

The motion of Mr. Parker to proceed to ballot was voted in the affirmative.

On Motion of Loring Jordan.

Voted: That at the close of balloting this meeting stand adjourned to Tuesday evening, December 21, 1920 at 7.30 o'clock P. M.

After the appointment by the Moderator of sufficient number of persons to take charge of ballot box and check list, the vote was taken by a "Yes" and "No" printed ballot.

Polls were opened at 9.05 and closed at 10.35.

Total number of votes cast 1168.

Necessary two thirds, 779.

"Yes" 708, "No" 460 and the motion was declared not carried.

Adjourned at 10.50.

Adjourned Town Meeting, Dec. 21, 1920

Meeting called to order at 7.55 o'clock P. M. by Moderator Clemons, Article 3 being in order.

Article 3. To see if the town will vote to petition the General Court for legislation to permit the town to accept bonds of any company it may sell its municipal lighting plant to in payment therefor.—Board of Selectmen.
On Motion of Mr. Jordan for Finance Committee.

Voted: That the subject matter of Article 3 be indefinitely postponed.

Article 4. To see if the town will vote to purchase the whole or part of the gas necessary for distribution in the town, in lieu of manufacturing the same, or what they will do about it.—Board of Selectmen.
Motion by Finance Committee

That the Municipal Light Commissioners be authorized to purchase gas for distribution in town at their discretion.
On Motion by Mr. Dean.

Voted: That the subject matter of Article 4 be indefinitely postponed.

Article 5. To see if the town will vote to purchase and install additional apparatus for the gas plant and raise and appropiate money therefor, or authorize the Treasurer with the approval of the Selectmen to borrow money therefor and issue the bonds, notes or scrip of the town therefor, and determine the number and amount of same.—Board of Selectmen.

A Motion by Finance Committee to indefinitely postpone was lost.
On Motion by Mr. Dean.

Voted: That the sum of $25,000.00 is hereby appropriated for the purposes set forth in Article 5 of this warrant, and the purchase and installation of the apparatus therein referred to is hereby authorized.
On Motion by Mr. Dean.

Voted: That the Treasurer, for the purposes set forth in Article 5 of this warrant, be and hereby is authorized with the approval of the Selectmen, to issue bonds or notes of the town of the aggregate sum of $25,000.00; said bonds or notes to be payable $1,500.00 in each of the years 1921 to 1930 both inclusive, and $1,000.00 payable in each of the years 1931 to 1940 both inclusive and to bear interest payable semi-annually; all particulars as to form, date of issue and sale of said bonds or notes to be determined by the Treasurer with the approval of the Selectmen. Affirmative, 137. Negative, 28.

Article 6. To see if the town will vote to have a new gas main laid from the lighting plant to the Stoneham town line at Albion street, and raise and appropriate money therefor, or to issue bonds therefor, or what they will do about it.—Board of Selectmen.
On Motion by Jordan for Finance Committee.

Voted: That subject matter of this Article be indefinitely postponed.

Article 1.

On Motion by Cowdrey.

Voted: That the report of committee made under Article 1 be taken from the table.
On Motion of C. A. Dean.

Voted: That the report of committee be accepted.

Article 7. To see if the town will authorize the Town Treasurer to execute and deliver a bond in the name to the town to the United States, in the sum required by said United States, conditioned in substance upon the return in good order of all military equipment furnished by said United States to the School Department for use in the High School.—Board of Selectmen.
On Motion by F. J. Henkel.

Voted: That the town treasurer be authorized to execute and deliver a bond as called for in Article 7.

Voted unanimously.

Article 8. To see if the town will vote to appoint a committee to investigate, consider and report on a change in form of the government of the town, or what they will do about it.—Board of Selectmen.
On Motion by F. H. Hackett.

Voted: That a committee of ten be appointed by the Moderator to investigate, consider and report on a change in form of the government of the town.

Article 9. To see if the town will authorize and direct the Light Board to extend street lights through that part of Montrose avenue not now lighted.—Charles O. Wanamaker.
On Motion by Jordan for Finance Committee.

Voted: That the subject matter of this article be indefinitely postponed.

Article 10. To see if the town will accept the bequest in the sixth clause of the will of Mary H. Pratt, late of Wakefield, which reads as follows: "Sixth. To the Town of Wakefield, Massachusetts, the sum of two hundred dollars, the income only to be used for the benefit of the town library."—Theodore Eaton.
On Motion by Theodore Eaton.

Voted: That the town accept the bequest of $200.00 under the sixth clause of the will of Mary H. Pratt, late of Wakefield, the income only to be used for the benefit of the town library.

Article 11. To see if the town will convey to Lucy A. Pendleton of Wakefield, for a nominal consideration, the land on Oak street, Greenwood, formerly occupied by the Greenwood Hose House, being lot 365 on a plan recorded in Middlesex South District Registry of Deeds, book of plans 60 Plan No. 48, and bounded northerly by Oak street thirty (30) feet; easterly by lot 366 on said plan one hundred (100) feet; southerly by land formerly of Wood, Harmon et al thirty (30) feet; and westerly by lot No. 364 on said plan one hundred (100) feet; being the same premises described in a deed from Albert W. Flint, Treasurer of the Town of Wakefield, to John C. Roberson, dated August, 1903, and recorded with Middlesex South District Deeds, book 3052, page 53, and by said Roberson conveyed by mesne conveyances to said Lucy A. Pendleton.—Theodore Eaton.
On Motion by Theodore Eaton.

That the town convey to Lucy A. Pendleton of Wakefield for the nominal consideration of one dollar the premises described in Article eleven and that the Town Treasurer be directed to execute and deliver in behalf of the town a good and sufficient deed conveying said premises to Lucy A. Pendleton.
On Motion of Mr. Dean

Voted: That a vote of thanks be extended to the Moderator M. E. S. Clemons, for the able and impartial manner in which he has conducted this meeting.
On Motion of Mr. Theodore Eaton.

Voted: That this meeting be dissolved.

Adjourned at 8.50. Attendance 200.

Report of Selectmen

To the Citizens of the Town of Wakefield:—

We herewith respectfully submit the annual report of the Board of Selectmen for the year ending December 31, 1920, together with the reports of the several departments under its control or supervision.

ORGANIZATION

The Board, consisting of Edward Sullivan, Harry E. Clemons, Wesley S. Goodwin, Lauren S. McMaster and Frank H. Hackett, held its first meeting, March 1, 1920. Frank H. Hackett was elected Chairman; Lauren L. McMaster, Secretary; and H. A. Simonds, was appointed Clerk.

Lowande's Circus. W. T. McNally (2).
29 Victuallers licesnses were granted.

PERMIT TO ERECT AWNINGS, ETC.

Atlantic Awning and Decorating Co., Henry Miller, American Legion, E. Guy McLain, Wakefield Cash and Carry Market, David Ginsburg, Liberty Market.

The personel of the Board of Selectmen was changed in two respects this year, necessitated by the retirement of Chairman John J. Round and Mr. George H. Taylor former members of the Board.

The two new members elected to fill the vacancies were Mr. Lauren L. McMaster and Mr. Edward Sullivan.

The business of the town was dispatched with characteristic smoothness and in all major question there existed a practical unanimity of opinion.

A departure from the regular routine was instituted whereby it was agreed that the street committee should investigate all matters pertaining to highway and construction work but that decision should be rendered by a vote of the Board, thereby making the Board as a whole responsible for the street work and construction program.

It was deemed wise because of the expression of sentiment in different quarters that the question of a new form of town government should be brought before the people of the town.

To that end an article was inserted in the Town Warrant and a committee appointed by the Moderator.

The Board as a Board has no special recommendation to make pending the report of the committee appointed for that purpose. However in justice to efficiency the Board does feel that some change is necessary that would bring about a closer co-relation of the work of the different town departments.

In conclusion a word must be said in appreciation of the services of Town Accountant, Harry H. Simonds, whose intimate knowledge of town affairs has been of much value in handling the town work.

FRANK H. HACKETT,
HARRY E. CLEMONS,
EDWARD SULLIVAN,
LAUREN L. McMASTER,
WESLEY S. GOODWIN,

Report of Chief of Fire Department

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit the Annual Report of the Fire Department for the year ending December 31, 1920, with the total alarms, together with their losses and insurance on same as near as possible to obtain.

APPARATUS

There are at the present time 8 pieces of apparatus in this department, divided as follows:—

1 Triple Combination, built by the Webb Co., of St. Louis, put into service October, 1912. The pump has a capacity of delivering 600 gallons of water per minute, carries 1,100 ft. of hose, 1 Chemical Tank ,together with such other equipment necessary.

One Auto Ladder Truck, carrying 310 feet of ladders; one Chemical Tank and such other equipment necessary. Made by the Peerless Company and put into service September, 1914. Also carries 500 feet of hose and an Oxegen Tank for resuscitation work.

Greenwood Auto made by the Peerless Company, put into service in 1914 Carrying 800 feet of hose and one Chemical Tank.

One Auto Squad wagon made by the Peerless Company, put into service in 1914.

One Auto Combination; the chassis of which was purchased from the White Motor Company. The body for this machine was built and painted by the Permanent Men, and presents a machine that has received much priase from all who have seen it, and also makes a very valuable addition to the Fire Department, carrying 1,000 feet of hydrant hose; one 35 gallon chemical tank with

250 feet of chemical hose and such other equipment necessary to make an up to date piece of fire apparatus.

Montrose Hose, (Horse Drawn) made by the Abbott Downing Company. Put into service in 1893. Carries 800 feet of hose.

There is in reserve, two steam fire engines, both in good condition. The Silsby engine put into service in 1882. The Amoskeag engine put in service in 1907.

RECORD OF FIRES

During the year the department has responded to 158 alarms, divided as follows: 107 still alarms and 51 box alarms. The box alarms and the still alarms which involved loss are as follows:

Sunday, January 4, 3.10 a. m. Box 38. Automatic alarm followed by Box 38. Cause, defect in automatic alarm system, at L. B. Evans Shoe Factory.

Thursday, January 15, 1.05 p. m. Still alarm. Dwelling house at 35 Merriam Street. Owned and occupied by John D. Beyer. Loss small. Cause, explosion of oil stove.

Saturday, January 17, 2.20 p. m. Still alarm. Dwelling house, 25 Lafayette Street. Occupied by Louis Harris. Loss, small. Cause, fat on stove.

Sunday, January 18, 12.45 p. m. Still alarm followed by Box 24. Dwelling house, owned and occupied by Carroll Ronan. Loss, $500.00. Cause spontaneous combustion.

Thursday, January 22, 2.14 a. m. Box 32. Chimney fire at dwelling, 68 Valley Street. Owned and occupied by Micheal Terravechia. Loss small.

Friday, February 6, 3.00 p. m. Box, 135. Collapse of roof of stable, Mechanic Street. Owned and occupied by Mrs. Hathaway. Cause, weight of snow on roof. Man and 2 horses rescued.

Tuesday, February 17, 4.57 p. m. Box 23. Dwelling house, 165 Albion Street. Owned by Wakefield Building Association. Occupied by G. Deveau. Loss, $100.00. Cause, defective chimney.

Thursday, March 18, 6.45 p. m. Box 9. Dwelling house, 10 Wiley Place. Occupied by George F. Leach. No loss. Cause, defective chimney.

Thursday, March 25, 12.18 P. M. Box 14. Dwelling house, 854 Main Street. Owned by Miss Flint and occupied by T. H. Ayer. Loss, small. Cause, sparks from chimney.

Thursday, April 1. 9.50 p. m. Box 114. Dwelling house. Located in Saugus.

Friday, April 2, 2.10 a. m. Box 65. Dwelling house 22 Eustis Avenue. Owned and occupied by T. Frank Shea. Loss, $2,373.75. Cause, probably spontaneous combustion.

Saturday, April 3, 3.30 p. m. Box 113. Brush fire off Overlook Road.

Thursday, April 8, 10.36 p. m. Still alarm. Dwelling, 29 Chestnut Street. Owned and occupied by A. Akyroyd. Loss, small. Cause, defective fireplace.

Sunday, April 11, 5.12 p. m. Box 19. Brush fire at Harts Hill.

Monday, April 12, 9.30 a. m. Still alarm. Barracks Building at Rifle Range. Loss, small. Cause, sparks from chimney.

Friday, April 16, 6.35 p. m. Box 18, followed by Box 115. Chair factory, North Avenue. Owned and occupied by American Reed and Willow Co. Loss, $38,500.00. Cause, probably spontaneous combustion.

Sunday, April 18, 8.44 a. m. Box 23. Dwelling house, 5 Lake St. Owned by A. DeCecca, occupied by Nicholas Sullo. Loss, small. Cause, sparks from chimney.

Monday, April 19, 11.21 a. m. . Box 48. Grass fire off Quannopowitt Avenue.

Monday, April 19, 3.45 p. m. Still alarm followed by Box 44. Woods fire off Montrose Avenue. Loss $100.00. Cause, unknown.

Saturday, December 25, 10.53 a. m. Box 36. Dwelling house, 26 Park Street. Owned by Millidge Elliot. Occupied by Daniel Fessenden and Lester Gammons. Loss, $50.00. Cause, unknown.

Estimated value of property endangered	$298,650.00
Loss on same	47,755.00
Insurance on same	367,450.00

In Memoriam

WILLIAM F. CADE

Chief of Wakefield Fire Department

Member of Fountain Engine Co., May 1885.

Appointed Captain, 1887 to 1891.

Appointed on Board of Engineers April 25, 1892 to 1898.

Superintendent of Fire Alarm from 1894 to 1899.

Appointed Chief, May 3, 1899 to 1912

Appointed Permanent Chief at Annual Meeting 1912 and serving until time of death November 26, 1920.

It has seemed best to the All-Wise and merciful Providence to summon into a larger service of the heavenly life William E. Cade of the Wakefield Fire Department.

And the members of the Fire Department are deeply conscious of the great loss which they and the Town of Wakefield have sustained in the passing of such a faithful and efficient fireman and citizen.

His constant devotion to his duties and his untiring efforts to maintain a high standard of efficiency that his department might render all possible assistance in time of distress and emergency were his life's ambitions.

His profound influence for good which made itself felt in the self control and consideration for others in time of stress were the ideals he always retained. And his profound regard for democracy and service will always stand as a monument.

WILLIAM E. CADE

Died November 26, 1920

Chief of Wakefield Fire Department 1899 to 1920

Member of Department 35 Years

CONCLUSION

In closing this report I wish to return my sincere thanks to the Honorable Board of Selectmen, also to Selectmen Edward Sullivan, Committee on the Fire Department, for the interest manifested by them in all matters pertaining to this department during the past year.

To the Chief of Police and the members attached to his department for valuable assistance rendered.

My thanks are also due to each officer and member of the department for thier prompt and faithful discharge of duty the past year.

Also to Dr. C. L. Sopher for his valuable aid to our members at all fires.

For appropriations and expenditures see Town Accountants report.

F. D. GRAHAM,

Chief of Department.

Water running to waste and reported	10

I have collected in non-support cases $3,048.50 and have paid the same by check.

On duty calls 29,280.

January 15, 1920, James A. Preston was appointed a patrolman taking the place of Joseph Fazio, who had resigned.

Discipline

The officers have performed their duty well and I want to thank them.

CONCLUSION

To your Honorable Board, and to his Honor Judge Charles M. Bruce, and his associates, E. Leroy Sweetser and Thomas P. Riley, and to the Clerk, Wilfred B. Tyler, and his Assistant, Henry C. Bacon, and to each and every person who have assisted and remembered this Department, I wish to extend my sincere thanks.

Respectfully submitted,

JAMES J. POLLARD,

Chief of Police.

Report of Highway Engineer

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit report of work done by the Highway Department for the year ending December 31, 1920.

The Appropriations expended under the Highway Department supervision were as follows:—

		Appropriated	Expended	Balance
(1)	General Highways	$44,000.00	$43,996.82	$3.18
(2)	Permanent Construction	6,000.00	5,989.14	10.86
(3)	Salem Street	9,000.00	8,978.93	21.07
(4)	Salary (Supt.)	2,500.00	2,500.00	0.00
(5)	Ash Collection	2,000.00	1,362.13	637.87
(6)	White Avenue	1,700.00	1,660.17	39.83
(7)	New Barn	5,000.00	1,538.43	3,461.57
	Total	$70,200.00	$66,025.62	$4,174.38

The following explanation of the above appropriations will be taken in the order named.

(1) GENERAL HIGHWAYS

As the name implies, is a general appropriation to take care of a miscellaneous amount of work and is divided as follows:

Divisions	Allotment	Expended	Balance	Overdraft
(A) Vacations	$465.00	$469.88		$4.88
(B) Auto	1,125.00	959.75	165.25	
(C) Stable	1,683.00	2,327.57		644.57
(D) Sidewalks	7,500.00	9,258.05		1,758.05
(E) Patrol	1,500.00	1,035.26	464.74	
(F) Snow	6,600.00	6,645.32		45.32
(G) Gen. Maint.	7,000.00	2,760.04	4,239.96	
Section 1	1,162.16	2,367.29		1,205.13
" 2	3,195.94	4,267.73		1,071.79
" 3	1,452.70	1,935.67		482.97
" 4	2,033.78	2,718.85		685.07
" 5	1,452.70	1,543.23		90.53
" 6	1,307.43	1,162.83	144.60	

Divisions	Allotment	Expended	Balance	Overdraft
" 7	2,179.05	1,409.47	769.58	
" 8	871.62	643.62	228.00	
" 9	871.62	739.93	131.69	
(I) Re-treating	3,600.00	3,752.33		152.33
	$44,000.00	$43,996.82		

The above allotments were made early in March 1920 and in some cases the money actually expended varies somewhat from such allotments, either due to increased cost of materials or dangerous repairs that had to be attended to and the addition of two horses (five in all) given the Highway Department by the Light Department.

(a) **Vacations.**—Highway Department employees are entitled to two weeks vacations with pay (Acts. of 1914, Chapter 217) accepted by Town, Novem- 1914.

(b) **Auto.**—This item shows the cost of a new Ford Runabout (truck body, $494.10) and old Runabout turned in, and all maintenance cost was $465.65. The Runabout has been run (from March 1920 to December 1920) approximately 8100 miles.

(c) **Stable** —This item shows the cost of maintaining a stable of three horses to March 1, 1920, and five horses for the balance of the year.

(d) **Sidewalks.**—This item includes new permanent work (granolithic and tar), top dressing, gravel and cinder sidewalks.

New work consisted of 4,357.16 lineal feet of granolithic and tar sidewalks, varying in width from 4 1-2 feet to 6 feet and cost was $5,842.25, and as one-half is paid for by the abutters, $2,889.15 goes to the Town's Treasury.

This new work was constructed in the following streets:

Pleasant Street, westerly side from Sweetser Street to Wave Avenue. Tar concrete.

Oak Street, northerly side in front of property of F. W. Harnden and Collis Lovely. Tar concrete.

Greenwood Street, southerly side from Myrtle Avenue to and by property of Mr. and Mrs. Rilley. Tar concrete.

Stedman Street, southerly side from Dell Avenue to Mr. Atwell's property, northerly side from Park Place to Park Gates. Granolithic.

Converse and Gould Streets, northerly side from Walnut Street to Dell Avenue. Tar concrete.

Vernon Street, westerly side from Pleasant Street to Otis Street. Tar concrete.

The tar concrete cost from $1.21 to $2.31 per sq. yd. or an average of $1.86

The cost per square yard varies, due to haul and labor in preparing a foundation and excavation necessary to put sidewalks on proper line.

The granolithic sidewalks costs $3.75 per square yard.

A great deal of top dressing (tar) was done in many sections of the Town, also gravel and cinder walks were laid.

(e) **Patrol.**—The following streets were swept by one man for approximately eight months.

Water Street from Main Street to Melvin Street.

Lincoln and Smith Streets.

Richardson Avenue.

Albion Street from Main Street to Murray Street.

Chestnut Street from Main Street to North Avenue.

North Avenue from Albion Street to Chestnut Street.

Main Street from Junction (B. & M. R. R.), to Salem Street.

(f) **Snow.**—This item includes removing of snow from sidewalks, sanding and carting snow away from Square, Albion Street, North Avenue and other streets in Town, also new ploughs and repairs and painting of old ploughs.

(g) **General Maintenance.**—Under this item is charged all accounts that cannot be charged to any of the other items, such as new guard fences, repairing and painting old fences, cutting grass along sidewalks, trimming trees and repairs on Road Machinery and Rollers.

(h) **Sections.**

(1) RE-TREATING

Such bituminous macadam streets as portions of Main Street, Chestnut Street, Albion Street, Lowell and Salem Streets, were patched and dressed with tar, asphalt and sand.

More money is needed for this work because the Town is building from 3,000 to 3,200 sq. yds. of bituminous roads each year. Maintenance of such roads saves patching which is very expensive and at the same time unsatisfactory at the best.

(2) PERMANENT CONSTRUCTION

Appropriation	$6,000.00	
Expended	5,989.14	
Balance		$10.86

A bituminous macadam road on the easterly side of North Avenue extending from Church Street to Beacon Street, with two catch basins and necessary outlets was constructed. Approximately 1,800 sq. yds. of surface was laid. 8,550 gallons of Bermudez Asphalt at 25 1-2 cents per gallon, was used as a binder.

(3) SALEM STREET

Appropriation	$9,000.00	
Expended	8,978.93	
Balance		$21.07

A bituminous macadam road was constructed on Salem Street extending near Montrose Depot to Wakefield-Lynnfield Line, a distance of about 1,500 ft., or 3,000 sq. yds. Bermudez Asphalt was used as a binder.

Three catch basins were installed with 45 feet of 10 inch vitrified pipe and 60 feet of 12 inch vitrified pipe.

The construction of this Street was done according to plans and specifications furnished by the Massachusetts Highway Commission and on completion of work was accepted by them.

The State and County paid to the Town two-thirds of the amount expended.

This completes the road from the head of the Lake to the Lynnfield Line.

The amounts expended year by year are as follows:

1915	$6,000.00	
1916	5,559.99	
1917	5,268.11	
1918	7,162.16	
1919	8,998.02	
1920	8,978.93	
Total		$41,967.21

of which the Town paid $13,989.07 for approximately 11,800 lineal feet or 23,600 sq. yds. The cost to the Town was 59 cents per sq. yd., which is cheaper

than the Town could have built a Gravel Road, and instead they have a road which with proper maintenance will last for fifteen or twenty years.

When possible all such roads should be improved in the same manner, namely, with State and County paying two-thirds of the bill.

I believe such aid could be asked for on Lowell Street from Main Street to Pratt Street—or Water Street to the Saugus Line.

(5) ASH COLLECTION

Appropriation		$2,000.00	
Paid Contractor	$975.11		
Care of Dumps	368.12		
Printing, etc	18.90		
Total		$1,362.13	
Balance			$637.87

The Town Treasury received $834.18 for the sale of Ash Tickets. Approximately 7,247 barrels of ash were collected.

I would recommend the discontinuance of the ash collection as the Town as a whole do not avail themselves of the collection.

(6) WHITE AVENUE

Appropriation	$1,700.00	
Expended	1,660.17	
Balance		$39.83

The original material on this road was clay and in the Fall and Spring it was a not uncommin sight to see from two to three feet of mud which made it almost impassable. This material was excavated for a depth of approximately 18 inches and 12 inches of large stone on bottom and 6 inches of good gravel on top all rolled and firmly compacted was replaced. Two catch basins and two hundred and seventy (270) feet of ten (10) inch vitrified clay pipe was installed. This street was accepted under the Betterment Act.

(7) NEW BARN

Appropriation	$5,000.00	
Expended	1,538.43	
Balance		$3,461.57

The foundations for a barn 51 ft. x 33 ft. and twenty piers for sheds has been completed. I earnestly hope that the Barn Appropriation asked for in 1921 Highway Budget be raised and appropriated. The present barn (on the Wake-

field Estate) is not laid for housing Highway tools and equipment, much of which at certain times of the year is exposed to the weather unprotected for several months at a time, which condition should not exist.

In conclusion I desire to express my appreciation to the Honorable Board of Selectmen for courtesies extended and also for the splendid co-operation given the Highway Department.

This same co-operation should exist 100 per cent, not only in each Department but between department and also between each and every citizen with every department. in Town—until such a co-operation actually exists the Town will not receive par value for money appropriated and indirectly a high tax rate.

Sincerely yours,

W. R. TOMPSON,

Highway Engineer

Report of Town Counsel

To the Honorable Board of Selectmen of Wakefield, Mass.,

Gentlemen:—My report as Town Counsel for 1920 is hereby submitted.

There are now pending against the town the following actions in tort for damages arising from alleged defects in ways.

One for $110.00.
One for $2,000.00.
One for $10,000.00.
One for $5,000.00.

In addition one for $10,000.00 for damages from alleged negligence of a department of the town.

There is also pending an equity action in which the town is plaintiff and in which decrees have been entered directing payments to be made to the Overseers of the Poor.

One action was brought for the Overseers of the Board and settled without being entered in court, the full claim of that board being paid.

One claim before the Industrial Board was defended successfully, it being for additional compensation for medical attendance under the compensation act.

Several written opinions have been given various department of the town as well as many oral ones.

The contracts for the Woodville School have been examined and a new bond by the contractor passed upon.

The statutes having been revised the Town By-Laws will now be redrafted and revised and presented to the town by the committee appointed therefor a result much desired and needed.

Many investigations have been made by this Department of reports of accidents arising from alleged defects in ways, and I wish to express my appreciation of the assistance the police department is giving in these cases which today represent the greatest source of liability which the town is under through legal proceedings.

The street railway situation grows worse so far as the accommodation of the citizens is concerned, only the main lines to Reading, Stoneham and Melrose being now in operation. The use of automobiles has certainly wrecked street railways in this locality, and there seems to be no remedy, because the resulting traffic is so diminished as to make the rates prohibitive if made large enough to sustain the railways.

Respectfully submitted,

M. E. S. CLEMONS,

Town Counsel.

Report of Planning Board

To the Honorable Board of Selectmen:—

The Town Planning Board has organized and held meetings as usual. We have considered various propositions which will undoubtedly prove of practical benefit to the Town in the future but have no definite recommendations to make at this time.

Respectfully submitted,

HUBBARD B. MANSFIELD,
PHILIP A. BRUORTON,
DR. CURTIS L. SOPHER,
DR. J. WILLIAM O'CONNELL,
E. HORACE PERLEY.

Report of Inspector of Buildings

To the Honorable Board of Selectmen:—

Wakefield, Mass.

Gentlemen:

I respectfully submit the following report for the year 1920. Permits have been issued for the following:

23 One-family dwellings
3 Two family dwellings
1 First class garage
46 Third class garages
2 Factories
1 Storehouse
6 Small stores
5 Sheds and small buildings
21 Additions and alterations

Total 108. Estimated cost, $372,875.00.

I have made 280 inspections. This is the largest valuation in new buildings for many years and I believe the largest in the history of the town.

I have inspected 32 elevators, 1 lodging house and reported same to the State.

Respectfully submitted,

CORNELIUS DONOVAN,

Inspector of Buildings

Report of Inspector of Animals

To the Honorable Board of Selectmen:

Dear Sirs:—

I herewith submit my annual report, as Inspector of Animals, for the year 1920.

Have made two hundred and ninety-six (296) calls. Have had four (4) cows under observation, but have found no tubercular cases, and no Hog Cholera.

There has been a few cases of Hemorrhagic Septicemia, among young pigs.

Taken as a whole, there has been little disease, among animals this year.

Respectfully submitted,

DR. PALMER CORBETT,

Inspector of Animals.

Report of Sweetser Lecture Committee

Board of Selectmen,

Wakefield, Mass.

Gentlemen:—

The Sweetser Lecture Committee presents herewith the financial report for the Course of 1919-1920. You will find receipts attached for each and every item of expenditure.

Receipts

Dec. 29, 1919	Sweetser Lecture Fund	$425.00	
Jan 9, 1920	17 Season Tickets	8.50	
	6 Admissions	1.20	
Jan. 21, 1920	37 Season Tickets	18.50	
	47 Admissions	9.40	
Jan. 28, 1920	283 Admissions	56.60	
Feb. 4, 1920	89 Admissions	17.80	
Feb. 11, 1920	71 Admissions	14.20	
	L. L. McMaster—Advance Sale, 54 Season Tickets	27.00	
	High School—Advance Sale	211.50	
			$789.70

Expenses

Jan. 9, 1920	William Lyons Phelps Lecture	$130.00	
Jan. 21, 1920	Donald B. McMillan Lecture	110.00	
Jan. 28, 1920	Frank B. Sibley Lecture	75.00	
Feb. 4, 1920	Joel H. Metcalf Lecture	50.00	
Feb. 11, 1920	Thomas A. Daley Lecture	125.00

	G. Clemons—Selling Tickets	7.50	
	Daily Item—Printing and Advertising	70.32	
			590.32
	Balance paid Sweetser Charity Fund		199.38
			$789.70

In presenting this report, we record with deep regret the sudden death of the senior member of our committee, Mr. Edwin C. Miller, whose passing away, on January 26, 1920 was a shock to our townspeople and a distinct loss to the Town of Wakefield Serving so many years with us, and taking such a keen interest in the Sweetser Course—in fact introducing to the audience, in his customary happy vein, one of the lecturers, a few days previous to his death—we deem it fitting and proper to record herewith this brief tribute to his memory. His presence at our meetings will long be cherished by us.

Respectfully submitted,

W. S. PERKINS,
J. LOWE McMAHON,
HARRIS M. DOLBEARE,
HARRY M. WHEELER,
Lecture Committee.

Report of Sweetser Charity

Rosa B. Cutler, *Treasurer*

In account with Sweetser Charity

Dr.	
To balance on hand Jan. 1, 1920	$420.59
February 12, 1920	
Received from Treasurer of Sweetser Lecture Committee	$199.38
Received dividends from Wakefield Savings Bank	19.56
	$639.53
Cr.	
By disbursements	$58.62
Jan. 1, 1921 balance	$580.91

ROSA B. CUTLER, *Treasurer.*

Report of Workmen's Compensation Agent

To the Honorable Board of Selectmen:

Wakefield, Mass.

Gentlemen:

There were two employees injured during the past year, also one carried over from last year, who received compensation. There were eleven slightly injured and received medical treatment only.

The total expense, including medical treatment and compensation, was $909.76.

A detailed statement may be found in the Town Accountant's report.

Respectfully submitted,

CORNELIUS DONOVAN,

Compensation Agent

Report of Inspector of Wires

To the Honorable Board of Selectmen:—

Gentlemen:—In compliance with the vote of the town, will report that there has been made a total of 365 inspections during the year 1920. All defects found were made to conform with the National Code.

Yours respectfully,

F. D. GRAHAM,

Wire Inspector.

Dec. 31, 1920.

Report of Sealer of Weights and Measures

To the Honorable Board of Selectmen:—

Gentlemen:—

I respectfully submit the following report for the year 1920.

	Adjusted	Sealed	Non Sealed	Condemned
Platform scales over 5,000 lbs.		12		
Platform scales under 5,000 lbs.		92		1
Counter Scales	1	116	1	3
Beam scales		9		
Spring Balance	1	80		9
Computing (platform) Scales	1	30		
Computing (hanging) Scales		5		
Slot Weighing Scales		3		
Steelyard		1		
Prescription Scales		5		
Weights (Avoirdupois)		834		
Weights (Apothecary)		72		
Weights (Metric)		24

Liquid Measure	5	95		
Oil Measuring Pump		17		
Stops		25		
Molasses Measuring Pumps		7		
Yard Measures		48		
Measuring Machines		1		

Trial Weighing and Measurements

(In this include manufacturer's as well as dealers packages)

	Tested	Correct	Incorrect Under	Incorrect Over
Coal (in paper bags)	1			1
Flour	8	4	1	3
Butter	6	2		4
Dry Commodities	7	4	3	
Meats and Provisions	14	9		5
Fruit and Vegetables	5		2	3
Bread	9		2	7

Amount of fees collected, $111.00.

Respectfully submitted,

ALBERT A. MANSFIELD,

Sealer of Weights and Measures.

Report of Forest Warden

To the Honorable Board of Selectmen:—

Gentlemen:—During the year 1920 there was a total of 92 woods and grass fires and the cost to extinguish the same is as follows:

Appropriations made, March	$150.00
Additional appropriation, October, (due to extra dry season)	150.00
Total	$300.00
Expended as per pay rolls, (total cost)	$245.50
Balance	$54.50

F. D. GRAHAM,

Forest Warden.

Report of Board of Health

The annual report of the Board of Health is herewith respectfully submitted:

Since the collection of garbage by unauthorized persons had increased to such an extent that it was no longer profitable to the collector employed by the town, it became necessary last March to advertize for bids for this work. The contract was awarded to Benedetto Brothers who commenced work June 1st. The enforcement of a by-law passed this year making it illegal to transport garbage through the streets without a permit from the Board of Selectmen will do much to improve the present service.

Since the sewer on Lake Street has been completed several houses have been connected, and as soon as conditions permit in the spring the remainder of the houses on this street will be ordered to connect.

Mill Brook has been cleaned out from Water Street near the car barns to the Saugus line at a cost of $450.00.

The work of the Tuberculosis Dispensary which was formerly attended to by the Visiting Nurse was taken over October 15th by Miss A. B. Allen who has been appointed Board of Health Nurse. In addition to the tuberculosis work, the Board of Health Nurse attends to the clerical work of the Board and keeps office hours 8-10 A. M., visits houses where contagious diseases are present and acts as agent of the Board in their management.

Permission has been granted the Harvard Infantile Paralysis Commission to use the Office and Dispensary on stated days for a clinic for the treatment of children who have been crippled by infantile paralysis. Transportation has been furnished for these cases by a number of public spirited citizens of the town.

The Board has under consideration a revision of the regulations heretofore in force but which fail to meet present conditions. Certain changes have already been made concerning the minimum requirements in the handling of contagious diseases.

419 cases of infectious diseases were reported for the year ending December 31, 1920 divided as follows:

Chicken-pox	15
Dipthheria	15
Infantile Paralysis	3
Influenza	45
Measles	255
Mumps	1
Ophthalmia Neonatorum	2
Pneumonia	20
Scarlet Fever	19
Tuberculosis	25
Typhoid	4
Whooping-cough	15

Five hundred and forty-three complaints have been received and investigated.

Six premises have been visited by the Board for the abatement of nuisances.

Fourteen licenses have been granted, seven for the sale of denatured alcohol. five for undertaking and emblaming and two for slaughtering.

Attention is called to certain conditions which should be remedied at the earliest possible moment, and to which the following recommendations apply.

The Board of Health recommends:

1. That the sewer be extended to include Heywood Brothers & Wakefield Company Rattan Factory and Columbia Road.

2. That the sewer be extended to Crystal Lake Park.

G. E. TYZZER, *Chairman*

CHAS E. MONTAGUE, M. D.

A. D. JENKINS, *Secretary*

Report of Inspector of Plumbing

To the Honorable Board of Health.:

Gentlemen:—The work of this Department for the year ending December 31st, 1920 is as follows:

Number of permits granted	78
Number of fixtures installed	334
Divided as follows:	
Bath tubs	58
Wash Bowls	61
Closets	90
Sinks	55
Wash Trays	56
Urinals	6
Drinking Fountains	8

In addition to this 22 houses were connected with the sewer where no change of fixture was required.

Respectfully submitted,

DAVID TAGGART,

Inspector of Plumbing.

Annual Report of the Inspector of Milk

To the Board of Health of the Town of Wakefield:

Gentlemen:—The Inspection of the milk supply for the Town of Wakefield has been very satisfactory for the year 1920, with the usual few exceptions.

The standard of the milk has maintained a very fair average for the entire year and the sanitary conditions are fully as good, if not a little improved over those of last year.

With the increase in the price of milk the producers and dealers have found the business a little more productive and have therefore had more money to spend on their equipment. Some of the equipment has shown a marked improvement this year.

As yet the testing of the milk has been confined exclusively to the fat and solid contents and the visible dirt contained in it. I am in hopes that at some near time you may find it possible to include the test for the bacteria contents with that of the analysis for foods value contents as I am sure that it would greatly improve the sanitary conditions under which the milk is produced.

Ninety-six samples of milk and six samples of cream were analyzed this year, of which four samples of milk and one of cream were found to be below the required standard.

Thirty-seven licenses to sell milk and twenty-five licenses to sell oleomargarine were issued this year.

The total receipts for the department were $31.00.

CARL M. SMITH,
Inspector of Milk, Town of Wakefield.

Report of Inspector of Slaughtering

Town of Wakefield Board of Health:

Dear Sirs:—

I herewith submit my annual report, for Slaughter-house Inspection, for the year 1920.

There were two thousand and ten (2,010) pigs killed and inspected, and six (6) condemned, and two (2) died in transit.

There were also five (5) cows and three (3) calves killed, and O. K'ed.

Respectfully submitted.
DR. PALMER CORBETT,
Inspector of Slaughtering

Report of the Tuberculosis Dispensary

The work of the Tuberculosis Dispensary has been carried on as in previous years with clinics Tuesday afternoons and Friday evenings.

From January 1st, to December 31st, 1920, 31 patients have been examined at the Dispensary, five of whom were not tuberculous.

Of the 48 resident cases on record, 28 are active and 20 are arrested cases. 18 of these are under the supervision of the Dispensary and the remaining 30 under supervision of local physicians. Besides these there are 11 cases in hospitals and sanitoriums and 35 suspicious cases. 7 left town during the year. There were 25 new cases reported and 17 deaths.

Tuberculous patients have been visited, records obtained, sputum boxes distributed and advice given as to precautions to be taken to prevent the spread of the disease.

There has been a marked increase in the number of new cases reported and also the number of deaths. The activity of the Dispensary has likewise increased as more than two thirds of the 56 examinations made during the year were accomplished during the months of November and December.

IRA W. RICHARDSON,
Dispensary Physician

A. B. ALLEN, R. N.
Board of Health Nurse.

REPORT OF LIBRARY TRUSTEES

The Trustees of the Beebe Town Library present the sixty-fifth annual report of the Board for the calendar year, 1920.

Because of the high cost of building, no steps have been taken during the year toward the erection of the new library building. The Trustees sincerely hope however, that as soon as business conditions permit, work on the building will begin.

The Junius Beebe Book Fund, which was established by Mr. Beebe in 1919, three-fourths of the income of which is to be used each year for the purchase of books, yielded for the year, 1920, an income of seven hundred and seventy dollars ($770.00). This very generous gift makes possible the purchase of some of the more expensive reference books, which are so much needed in the Library.

By the will of Mrs. Mary H. Pratt two hundred dollars ($200.00) was given to the Beebe Town Library, the income of which is to be used each year for the benefit of the Library.

April first, Mr. J. Theodore Whitney resigned from the Board of Trustees, and in July, at a joint meeting of the Trustees of the Library and the Selectmen, Mr. J. Oliver Beebe was elected to fill the vacancy caused by Mr. Whitney's resignation. The Trustees are glad to welcome to the Board a member of the family whose generosity to the Library has been shown in so many ways.

There have been few changes in the Library staff during the year. In June Miss Luella Sidney resigned to enter the teaching profession, and in October, Miss Olive L. Eaton, a former assistant, was engaged as a regular assistant.

The Trustees realize that in order to maintain a high standard of library efficiency, they must have a well-paid library staff, accordingly some increase in salaries was made during the year, but even now they are in no way proportionate to the service rendered the town by the Librarian and her assistants.

The work of the Story-Telling Hour for children, carried on by a committee composed of members of the Kosmos Club, was continued on Saturday mornings in the Reading-room during the three winter months. The meetings were well attended, the total attendance being five hundred and seventy-two (572).

In spite of crowded conditions, the circulation of the Beebe Town Library continues to increase. The report for the current year shows an increase in circulation of three thousand seven hundred and sixteen (3,716) volumes, making a total circulation for the year of eighty-six thousand two hundred and seventy four volumes (86,274).

For the ensuing year the Trustees recommend for the Library appropriation seven thousand two hundred and forty dollars ($7,240.00) including the dog tax.

ELIZABETH FRANCES INGRAM,

Secretary of the Board of Trustees.

LIBRARIAN'S REPORT

To the Trustees of the Beebe Town Library, the Librarian submits the following report for the year, 1920.

The circulation, as already mentioned, is the largest in our history.

The demand for books for little children is constant and increasing and these little books have increased, often doubled, in price.

This year a definite effort has been made by teachers of the upper grades of the grammar schools to encourage supplementary reading. To help meet this extra call, a number of books, both new and duplicate, have been purchased, chosen from lists approved by the teachers.

It is suggested that as many of the adult patrons as possible exchange their books early in the day, avoiding the confusion of the extremely crowded condition which often occurs from three to five o'clock in the afternoons.

The reclassification, begun in 1914 and pursued under difficulties, especially of crowded conditions in the stacks, is finally completed.

Many requests for books have been received and most of the books purchased, a service which the library patrons much appreciate. Our increased book income from trust funds has made this possible.

Bundles of books and magazines have been contributed by citizens and forwarded to the Boston Public Library for distribution to sailors and hospitals.

Various gifts have been received. Mrs. Walter O. Cartwright has presented many attractive elementary books for children, Miss E. E. Ayers gave over a year's file of Mentors, unbound, some books and pamphlets of historic value were presented from the Edward Mansfield estate ,and two historic books of Wake-

field were given by Miss Grace McLain. Copies of the High School Debater were presented to the Library and Reading Room.

Other donors are listed in the following report.

Waiting list postals have been extremely popular during the past year, showing a total of 1,367.

The receipts and expenditures of the past year are as follows:

Library and Reading Room

Appropriation	$4,630.00
Income from Dog Tax	847.42

11th Annual Report of the Wakefield Water and Sewerage Board

THE WAKEFIELD WATER AND SEWERAGE BOARD presents herewith an annual report for the year 1920. The financial report below is again given in a simple form and contains only round figures. The exact figures are given in the Town Auditor's report.

Receipts	1920	1919	Expenses	1920	1919
Water Rates....	$56,270	$50,000	Maintenance.....	$28,450	$24,650
Services.....	4,330	1,800	Services.....	3,500	1,450
Rents, etc.....	350	350	Construction.....	3,850	2,350
			Bonds, retired....	12,000	12,000
			Interest on debt..	6,300	6,800
			Com. salaries....	300	300
			Credit balance...	6,550	4,600
	$60,950	$52,150		$60,950	$52,150

Expenses of Maintenance sub-divided

	1920	1919
Superintendent and Clerk	$2,800	$2,350
Labor	12,750	9,500
Office, Printing and Postage	600	600
Meters and Pipes	2,750	500
Equipment and Repairs	600	2,300
Automobiles	1,450	3,100
Coal and Freight	5,500	4,000
Miscellaneous	2,000	2,300
	$28,450	$24,650

From the above figures it will be seen that the Department has turned back to the Town in the past two years a net profit of approximately $11,150.00. Naturally the question may now be asked: "Why have not our water rates been reduced?" In answer to this, the Commissioners would remind the Town that the Department was forced to show a considerable loss (between $8,000.00

and $10,000.00) as a result of the freeze-ups during the Winter of 1917-1918. According to the law under which the Water Department is organized, it is the duty of the Commissioners to so regulate the water rates as to provide a sufficient income to meet all expenses, and hence it was necessary to continue the present rates until such a time as the Town had been fully re-imbursed for the abnormal expenses of that year. This deficit has now been taken care of, and with a decrease in the cost of coal, pipes, meters and other materials, and with no unusual expenses during the Winter, we may properly look forward to a reduction in our water rates in the near future.

New Construction

During the past year the street mains of the water system have been extended 7,277 feet (nearly 1½ miles). Part of this construction was called for by the bond issues voted by the Town for Lakeview Park and Crystal Lake Park, and the balance was covered by our regular construction account.

These new mains make water service now available to some 45 or 50 houses, with the prospect that fully as many more will eventually be added by new buildings on lots now vacant in these sections.

Re-laying of Mains

Breaks will occur in the water pipes of any system, and even with the closest inspection, breaks will frequently occur in pipes that are new. This year we have had 21 breaks in our mains, but it is noticeable that all of them have been in the old cement pipes. In our report last year we called attention to the necessity of making plans to re-lay certain definite sections of these old mains each year. It is safe to say that the 21 breaks in 1920 cost the Town $1,500.00 in repair money, and hence the Commissioners are making plans in this year's budget to start on a definite program of relaying streets and sections of streets which are now giving trouble. A start has already been made by the re-laying of 700 feet of pipe on Vernon St. A section of the old cement pipe on Lakeside near Cordis Street has given us 5 breaks this Summer, and should be one of the first parts of the system to be renewed.

Emergency Supply

During the Summer we have made connection between our water mains and those in the water system of the City of Melrose. This was done at Renwick Road, at a very small expense. The Commissioners now propose to connect our mains with the water system of the Town of Reading at Bay State Road. This connection can be made at an expense of about $1,200.00, for which sum we have made provisions in our construction account. When this is done, the Town will be provided with 3 emergency sources, in addition to our own Lake:

(1) Direct Metropolitan connections through Stoneham.

(2) With the City of Melrose system at Renwick Road.

(3) With the Town of Reading system at Bay State Road.

It is well to note also that Melrose and Reading are both in turn connected with systems adjacent to them, so that shortly Wakefield will be tied-in with the entire water system of greater Boston through its connections on the North, West and South boundaries of the Town.

Sewer Department

Under the bond issue voted by the Town, 1,677 feet of 8 inch tile sewer pipe have been laid on Lake Street and Broadway, making sewer service available to about 45 houses in this vicinity. On account of the great amount of blasting and the freezing weather, it was thought best in the interests of economy not to entirely complete the work on Broadway until Spring, when it could be done under more favorable conditions. The balance of funds in this account will permit the extension of the sewer up Broadway about 50 feet more and bring it approximately opposite the residence of Miss Mary Kalaher.

In view of the general discussion as to sewer service for the East side of the Town, we would make note that a considerable extension of the sewer mains in this section was considered some years ago. There is now on file in the Sewer Department a plan drawn by O. K. Morgan, Engineer, October 1, 1900. The Sewer Commissioners at that time were William H. Lee, William B. Daniels, and George M. Thompson.

This blue-print covers our entire sewer system and provides especially for all that part of the Town on the slope East of Pleasant St., parts of Montrose, and the section East of the Center Station. The slope of the land in this area is such as to make it necessary to collect all sewerage at some low place, and then to lift it, or pump it up to, a level where it may flow by gravity into our regular system. This particular blue-print calls for a low-level pumping station in the swamp off the intersection of Valley and Hart Streets. From this station the sewerage would be forced through the mains up Valley, Hart and Nahant Streets as far as Traverse Street, from which point it would then flow by gravity into the regular sewer mains on Main Street.

The present Commissioners have not as yet decided whether this particular plan is now applicable to conditions in this section of the Town. It is quite clear, nevertheless, that a very extensive system will be necessary to make ample provision for the district, and the amount of money in any such project will be much greater than the sums we have heard mentioned.

Respectfully submitted,

C. H. LEAROYD,
A. S. HILL,
H. M. WHEELER.

NEW CONSTRUCTION OF MAIN PIPE

Main Street, Lakeside, from dead end opposite A. G. Walton's estate to the corner of Main Street and Winnimissett Avenue 1,700 feet of 6 inch cast iron pipe.

Lakeview Avenue, 542 feet of 6 inch cast iron pipe and 420 feet of 2 inch galvanized wrought iron pipe.

Quannapowitt Avenue, 540 feet of 6 inch cast iron pipe, and 310 feet of 2 inch galvanized wrought iron pipe.

Winnimissett Avenue, 296 feet of 2 inch galvanized wrought iron pipe.

Johnson Avenue, 255 feet of 2 inch galvanized wrought iron pipe.

Range Avenue, 192 feet of 2 inch and 1¼ inch galvanized wrought iron pipe.

Lowell Street, east from Main Street to opposite house owned by A. G. Walton, 800 feet of 6 inch cast iron pipe.

Crystal Lake Park, Park Way from Broadway to Beach Way, 330 feet of 6 inch cast iron pipe, Beach Way from Park Way to Woodland Road, 180 feet 6 inch cast iron pipe, Woodland Road from Beach Way to opposite house of John Beyea, 300 feet of 6 inch cast iron pipe and 440 feet of 2 inch galvanized wrought iron pipe.

Upland Road from Dillaway Street to opposite house of James Nickerson, 147 feet of ¾ inch galvanized iron pipe.

Davidson Road from Parker Road to opposite house of Harold Calkins, 425 feet of 2 inch galvanized wrought iron pipe.

New street off Salem Street, opposite Montrose Depot. 400 feet of 2 inch galvanized wrought iron pipe.

Reconstruction of main pipe Vernon Street from opposite house of John Drugan No. 217 to Emerald Street 700 feet of 6 inch cast iron pipe. This pipe was re-laid on account of poor condition of the old cement pipe.

Services

New Services added during the year	76

Levi Flanders Burial Lot Fund, int. balance available	4.55
Total	$28,936.04

The above funds are invested as follows:

United States Liberty Loan 4¼% Bonds ($24,150.00 par)	$24,062.55
Wakefield Savings Bank	4,249.90
Blackstone Savings Bank	623.59
Total	$28,936.04

Full detail as to the nature of these funds, their incomes and detailed expenditures will be found in the Town Accountant's report.

LOAN ACCOUNT

The following sums have been borrowed on Temporary Notes in anticipation of revenue, during the year:

$100,000.00 at 5.73 per cent discount
75,000.00 at 5.76 per cent discount
25,000.00 at 5.84 per cent discount
25,000.00 at 6.00 per cent discount
25,000.00 at 6.25 per cent discount
25,000.00 at 6.125 per cent discount
40,000.00 at 6.00 per cent discount
25,000.00 at 5.46 per cent discount

$340,000.00

Of this amount $200,000.00 has been paid, leaving a balance due in 1921 of $140,000.00 in anticipation of revenue.

Time loans as follows have been issued during the year:

Salem Street construction, one year, $6,000.00 at 6 per cent.

Extension of Water Mains, $11,000.00 at 6 per cent.

The above loan is payable $3,000.00 in each of the years 1921, 1922, 1923 and $2,000.00 in 1924.

Extension of Sewers, $5,200.00 at 6 percent.

The above loan is payable $3,200.00 in the year 1921 and $2,000.00 in 1922.

PERMANENT DEBT

Permanent debt, Jan. 1, 1920	$491,500.00
Paid during 1920	42,500.00
	$449,000.00
New issues in 1920 as above	22,200.00
Permanent debt, Jan. 1, 1921	$471,200.00

The permanent debt has decreased $20,300.00 during the year 1920.

MATURITIES OF TOWN DEBT

Maturing in	1921	$48,700.00
	1922	39,000.00
	1923	36,500.00
	1924	35,000.00
	1925	24,000.00
	1926	24,000.00
	1927	24,000.00
	1928	23,500.00
	1929	23,500.00
	1930	23,500.00
	1931	27.500.00
	1932	27,500.00
	1933	22,500.00
	1934	15,500.00
	1935	14,500.00
	1936	13,500.00
	1937	13,500.00
	1938	12,500.00
	1939	12,500.00
	1940	10,000.00
Total		$471,200.00

The debt is chargeable to the following:

Water Department	$158,500.00
Light Department	36,000.00
Metropolitan Sewer	178,200.00
Highway Construction	6,000.00
School Buildings	85,000.00
High School Site	7,500.00
	$471,200.00

In addition to the above indebtedness the town has authorized the following bond issues.

By vote of Town Meeting of October 20, 1919, $450,000.00 was appropriated for the construction and equipment of a new High School building and grading the surroundings thereof on the High School lot on Main Street.

By vote of Town Meeting of December 21, 1920, $25,000.00 was appropriated to purchase and install additional apparatus for the gas plant.

CASH ACCOUNT

FINAL STATEMENT

During the year 1921, the following time loans will fall due and are to be included in the tax levy of 1921.

High School site	$2,500.00	
Junction School	1,500.00	
Montrose School	1,500.00	
Woodville School	4,000.00	
Macadam Construction of Salem Street	6,000.00	
Metropolitan Sewer	6,000.00	
Extension of Sewer	3,200.00	
		$24,700.00
Water Meters (included in Water Dept. Appro.)	3,000.00	
Main Street water main (included in Water Dept. appropriation)	1,000.00	
Water Loan, (included in Water Dept. appropriation)	8,000.00	
Extension Water Mains (included in Water Dept. appropriation)	3,000.00	
		$15,000.00
Light Plant (included in Light Plant appropriation)	$9,000.00	
		$9,000.00
		$48,700.00

There will also be required the following amounts to meet our interest payments:

High School Site	$250.00	
Junction School	52.50	
Montrose School	922.50	
Woodville School	2,745.00	
Macadam Construction of Salem Street	360.00	
Metropolitan Sewer	6,055.00	
Extension of Sewer	312.00	
Temporary Loans (estimated)	13,003.00	
		$23,700.00
Water Meters, (included in Water Dept. (appro.)	$258.75	
Main Street Water Main, (included in Water Dept. appro.)	22.50	
Water Loan, (included in Water Dept. appro.)	5,560.00	
Extension Water Mains, (included in Water Dept appro.)	660.00	
		$6,501.25
Light Plant (included in Light Plant appro.)	$1,440.00	
		$1,440.00
		$31,641.25

The borrowing capacity of the town, on temporary notes in anticipation of 1920 revenue, was $395,369.54, as determined by the State Director of Accounts. Of this amount, we were only obliged to borrow the sum of $340,000.00 and of this latter amount $200,000.00 has been paid, leaving $140,000.00 to be paid in 1921.

Respectfully submitted,

ARTHUR H. BOARDMAN,

Treasurer.

Report of Municipal Light Board

Wakefield, Mass., Jan. 25, 1921.

To the Citizens of Wakefield:

We submit herewith the twenty-seventh annual report of the Municipal Light Department, which is for the year ended December 31st, 1920. The report consists of a complete financial statement, our comments on the business, some of the physical data regarding the plant and in an appendix transcripts from our several cash accounts.

The financial statement, which immediately follows, consists of the two operating accounts, the profit and loss account and the balance sheet. It is in the form in which we are required to report to the Department of Public Utilities as of the same date.

OPERATING ACCOUNT—GAS

Expenses

Gas Coal	$31,733.50
Steam coal	212.30
Enrichers, oil	14,098.32
Purifying materials	393.19
Water	17.10
Wages at works	25,078.23
Works tools etc.	911.65
Repairs, structures and holders	2,112.13
Repairs, machinery and equipment	2,340.77
Repairs, steam plant	291.93
Gas bought	4,444.24
Meter takers	1,197.48
Distribution tools, etc.	164.70
Stable	983.88
Garage	1,919.70
Care of gas meters	1,621.70
Repairs, mains and services	6,466.92
Repairs, gas meters	913.40
Salaries, municipal light board	150.00
Salary of manager	1,226.60
General salaries	2,256.41
Office expense	3,189.39
State assessment	43.52
Insurance	372.70

Law expense	10.00	
Claims	107.14	
Oil, waste and packing	154.43	
		$102,411.33

Income

Accounts payable, construction	1,619.13	
Accounts payable, operation	19,436.46	
Deposits	3,164.00	
Interest accrued	360.00	
		$132,212.45
Loans repayment		197,300.00
		$329,512.45

The new ledger, disbursements book, journal and cash book are now running about as they should and we believe that they will give us the necessary financial data in a simple and straight-forward manner with the least possible amount of work. During the year, we have installed a new consumers ledger consisting of a card for each consumer and a set of binders for the cards. These replace the consumers ledgers that were in use and which consisted of large and cumbersome bound books. With the card ledger, we have also installed a book keeping machine by which one person is making out all of the bills and bill stubs, the consumers ledger cards and tally sheets and is posting all of the cash, discounts and bills receivable. This machine has been in operation since early in December and we are satisfied that it is well worth the money it cost.

The cost of gas in the holder, during 1920, was $1.27+ per thousand cubic feet. This cost includes the cost of coal, enrichers, purifying materials, water, wages at works, works tools, repairs of structures and holders, repairs of machinery and equipment, repairs of steam plant, interest, depreciation and debt retirement.

The total cost of gas delivered to the consumers was $2.17+ per thousand cubic feet. This cost includes all of the operating, distributing and management costs together with interest, depreciation and debt retirement. It has been a bad year for gas making because of the high prices of coal and oil for enriching and because the quality of these has been very low at times. The oil has been so bad as to put the water gas set out of commission several times. With the new set, we shall not only obtain a higher efficiency but we shall also have spare equipment in times of trouble.

The prices charged our regular consumers were $1.70 gross, $1.60 net from January 1st to June 15th; $2.00 gross, $1.80 net from June 15th to December 1st; and $2.40 gross, $2.20 net after December 1st. The prices charged our prepayment consumers were $1.60 from January 1st to June 15th and $2.20 after June 15th. The early charges did not cover the cost and the result, as shown by the gas operating account, was an operating loss of $10,953.78 to say nothing of the interest, depreciation and debt retirement charges. We shall, therefore, be obliged to continue the later charges until we can reduce the cost of the gas delivered to the consumers but we believe that this can be done.

Gas could be purchased from the Malden & Melrose Gas Light Co. and a letter from them, addressed to Mr. George A. Cowdrey under date of December 4th, 1920, quotes their price for the same delivered at our works. The price quoted is based upon the cost of gas in the Malden holder and it is stated that said price would have been $1.277 per thousand cubic feet during September and $1.225 during the four months ended October 31st. The price would become a part of our cost of gas in the holder. If we could sell our buildings, machinery and equipment for an amount which would enable us to write these items off of our books and retire the corresponding indebtedness, we should have no debt retirement obligation, interest charge or repairs (except for the holders) which would have to be added to this price but we should have a charge for attendance and for heat during the winter months. These would not be large but they would certainly be large enough to make our cost of gas in the holder, even based on the lower price quoted, greater than the present cost.

During the year, additions were made to both distributing systems that is, to the mains, services, gas meters, lines, transformers, electric meters and street lights. The total value thus added amounted to $16,359.39 and came form the following sources.

From the balance of the construction fund on hand Dec. 31, 1919 less accounts payable of the same date	$242.80
From appropriation from tax levy	4,000.00
From transfers from the depreciation fund	6,596.37
From stock paid for out of the operation fund	3,901.09
From accounts payable, Dec. 31, 1920	1,619.13
	$16,359.39

During 1921, similar additions will be required. Additional consumers are continually applying for service and we are in duty bound to supply them. This means that we must continually extend our gas mains and electric lines, and install additional services, gas meters, transformers and electric meters.

We estimate that, during the year, we should also install about fifty additional street lights and we believe that these should be installed where we think they will best serve the interests of the Town as a whole rather than where and as they may be called for by local parties. The existing street lighting circuits should be rearranged so that they will all be switched on and off and metered at the station.

We request an appropriation of $20,000.00 for construction, the same to be obtained from town bonds payable $1,000.00 annually.

As to an appropriation from the tax levy for street lights and other expenses, we estimate that our requirements will be as follows:

$110,000.00	for gas operating expenses
57,000.00	for electric operating expenses
4,000.00	for interest
7,000.00	for depreciation
10,500.00	for debt retirement
$188,500.00	total

$100,000.00	income from gas consumers
70,000.00	income from electric consumers
$170,000.00	total
$18,500.00	required from tax levy

Comparing this with previous years, we would call your attention to the fact that the appropriations from the tax levy in 1919 were

$28,000.00	for maintenance
600.00	for construction
$28,600.00	total

The appropriations from the tax levy in 1920 were

$21,000.00	for maintenance
4,000.00	for construction
$25,000.00	total

And we ask from the tax levy for 1921

$18,500.00	for maintenance
0.00	for construction
$18,500.00	total

The question as to whether or not the plant should be sold has been discussed and has been placed before the voters in special town meeting. At that meeting, it was decided not to sell the plant but to install a new water gas set. Your commissioners are of the opinion, therefore, that the voters desire to give municipal ownership another try out and, with that idea in view, they will endeavor to learn during the present year what can be accomplished and what can not.

We have retained Mr. Whiting's services to a considerable extent during the year because it has been both advisable and necessary to do so. What he has to say regarding the Department may be of interest to some, so we append a letter from him dated January 25th, 1921.

Respectfully submitted,

JOHN M. CAMERON,
MARCUS BEEBE,
SAMUEL H. BROOKS,

Municipal Light Board.

EDWIN C. MILLER

Died January 26, 1920

Electric Light Commissioner, 1909-1920

REPORT OF CONSULTING ENGINEER

Boston, Mass., Jan. 25, 1921.

Municipal Light Board, Wakefield, Mass.

Gentlemen:—

As you are obliged to prepare a Return to the Department of Public Utilities for the year ended December 31st, 1920 and report to the Town as of the same date, I beg to submit the following.

The financial statement, which I am handing to you herewith, is in the form prescribed by the Department of Public Utilities, is in a proper form to use in reporting to the Town and is in the same form as was used a year ago. Furthermore, it is a direct copy from your general ledger, without any computations or alterations.

As I said last year, the statement consists of operating account, gas; operating account, electric; profit and loss account, and balance sheet. It is a complete financial statement of what the Department accomplished during the year and how it stood at the end of the year. The operating accounts show the operating expenses and incomes and the balances between these, which balances are carried to profit and loss. The latter shows the non-operating expenses, such as interest, depreciation, etc., and the non-operating incomes. The balance of profit and loss is carried forward from year to year and represents the surplus or deficit as the case may be. The balance sheet shows the book values of the assets and liabilities at the end of the year. The difference between these also represents the surplus or deficit and agrees with the profit and loss balance.

The statement shows several things of interest and I beg to call your attention to some of these.

The deficit at the beginning of the year, amounted to $56,826.60 and, at the end of the year, it amounted to $57,543.85. In other words, the deficit was increased during the year by $717.25 which means that a net overall loss of that amount was made.

The debit side of profit and loss shows a loss in the stock account amounting to $2,846.52. This is the result of a more careful and conservative valuation of the inventory of December 31, 1920 than was made December 31st, 1919. It represents a loss but one which is attributable to the past rather than to the year 1920.

The debit side of profit and loss also shows a loss of $1,777.24 on account of sundries. Of this amount $1,727.24 is a correcting entry. As of December 31st, 1919 there was a balance on hand in the operation fund of $1,727.24 and, because of a town by-law, the town authorities claimed that it should revert to the Town. In paying it over to the town and writing it off of the books of the Department, I debited it to appropriations for construction. Since it was a return of money to the town I thought it might reasonably be treated as

a reduction of the amount appropriated by the town for construction. The Department of Public Utilities would not allow that treatment however and, to correct the entry, it was debited to profit and loss in 1920. Of course it was not a loss but this treatment makes it appear as such and the plant gets no credit for it, either on its books or in the minds of the voters.

Again, the debit side of profit and loss shows a loss of $10,000.00 which is the amount of bonds and notes retired during the year. This is also because of a ruling of the Department of Public Utilities. Whenever debt is retied, it is, of course, credited to cash and debited to the liability account bonds or notes, as the case may be. At the same time, however, a parallel entry must be made crediting a liability account called loans repayment and debiting profit and loss. This must be thoroughly understood if you wish to learn the true standing of the business from the accounts that are kept.

By referring to the balance sheet, you will observe that the deficit of $57,543.85, previously mentioned, is the difference between

the *so-called* liabilities of	$329,512.45
and the assets amounting to	271,968.60
that is	$57,543.85

The liabilities consist of

Appropriations for construction	$71,632.86
Bonds outstanding	36,000.00
Accounts payable	21,055.59
Consumers deposits	3,164.00
Interest accrued but not due	360.00
Loans repayment	197,300.00
Total	$329,512.45

Of the appropriations for construction, $25,000.00 was appropriated at the recent town meeting and will eventually be transferred to bonds. The remaining $46,632.86 is supposed to have been appropriated from the tax levy for construction purposes and to have been over and above the necessary appropriations from the tax levy for expenses. Whether it was or not I cannot say without searching the accounts from the time the business was started; but I doubt it very much. I should like to make that search but, for the present, the figure will have to stand. The bonds outstanding, accounts payable, deposits and interest accrued are proper and legitimate liabilities. The remaining item, loans repayment, is not a liability, either as regards the department, or as regards the town. It does not represent anything that anyone owes to anyone else. It simply represents the bonds and notes that have been retired. Therefore, if we accept the $46,632.86 as representing the true appropriations for construction the standing of the department, December 31st, 1920, was as follows:

So far as the Department is concerned

Assets	$271,968.60
Liabilities	132,212.45
Surplus	$139,756.15

So far as the Town is concerned

Assets	$271,968.60
Liabilities	85,579.59
Surplus	$186,389.51

As to the correctness of the assets, I would say that the cash and inventory values (such as coal, coke, tar, enrichers and other materials and tools) are reasonably correct. The accounts receivable may contain some uncollectible accounts but not to any considerable amount. To check the values in the plant accounts (such as buildings, machinery, mains, lines, transformers, meters etc.) would require an appraisal and that has not been authorized. It is probable that the values are substantially correct, however, because they have been written down each year by the depreciation provided by law. That was 5% per annum of the cost of the plant, up to and including 1905, and 3% thereafter.

There has been some talk about the excessive "leakage" of gas but the talk has not been based upon a knowledge of the facts. The gas manufactured and metered at the works shows one amount whereas the gas delivered and metered on the consumers premises shows a smaller amount and the difference between these two amounts has been called "leakage." It is not all leakage, however, and for the following reasons. The average temperature of the gas at the works is higher than the average temperature at the consumers premises. It is cooled by being passed through the mains and services underground and that cooling causes a contraction in volume. In other words, the cubic feet of gas delivered to the consumers is less than the cubic feet of gas put out by the works because of the cooling that takes place and irrespective of any leakage. Furthermore, the gas leaving the works contains certain elements in the gaseous state, which are condensed to a liquid state during the passage through the pipes; and the volume of gas is thereby reduced, irrespective of any leakage. These two conditions are not peculiar to Wakefield. They exist in all gas plants. Their effect varies from time to time and, if complete records are kept, the resulting contraction in volume can be calculated and subtracted from the apparent leakage to ascertain the actual leakage.

For the calendar year 1921, you will require, for additions to the plant, about the following amounts of money.

For Mains	$700.00
For Services	1,000.00
For Gas Meters	1,500.00
For Lines	6,500.00
For Transformers	800.00

For Electric Meters	1,500.00
For Street Lights	2,000.00
For Stock used during 1920	3,901.09
For Accounts payable	1,619.13
For Sundries	479.78
	$20,000.00

This should not be requested as an appropriation from the tax levy because the tax payers should not be called upon to supply it. It should be requested as a loan, payable $1,000.00 annually. The Department can pay the interest on such a loan and retire it as it becomes due without placing any burden upon the tax payers. The present indebtedness of the Department is only $61,000.00 while its assets amount to $271,968.60 and the annual business done amounts to about $167,000.00. The interest charges during 1920 amounted to $1,723.33 and the debt retirement obligation amounted to $10,000.00. With the $25,000.00 already authorized for additions to the gas plant and the $20,000.00 above referred to, the indebtedness of the Department will be $81,000.00, the assets will amount to $291,968.60, the immediate interest charges will amount to about $4,000.00 and the debt retirement obligation will amount to $11,500.00.

In the past, it has been the policy of the Department to use all of the depreciation provision for additions to the plant, leaving nothing in the Depreciation Fund for replacements or renewals. The result was that when parts of the plant became worn out, obsolete or inadequate, they had to be retained and operated because there was nothing in the Depreciation Fund with which to replace them. This is not as it should be and I advise you against its continuance in the future. The fundamental idea of the Depreciation Fund is to provide funds for the replacement of equipment as it depreciates. The law allows these funds to be used for additions because, when a plant is new, replacements are not required and the Depreciation Fund becomes large. The question then arises as to what to do with the money so the law allows it to be re-invested in the plant in the form of additions. Your plant is not new, however, and the need for replacing obsolete equipment is present at all times. The depreciation allowance required by law is only 3% of the cost of the plant and this is little enough to keep it in an efficient operating condition.

Respectfully submitted,

C. W. WHITING.

Record of Births

Any errors or omissions noted in these records should be reported to the Town Clerk at once.

FREDERIC S. HARTSHORNE

Town Clerk.

Report of Overseers of the Poor

The Overseers of the Poor herewith submit their report.

At the Home there are seven inmates, six men and one woman, also two women and one man boarders. There has been one death at Home the past year.

The Spring and Summer of 1920 the calls for assistance were light. But as Fall and Winter came on with the general depression in business, the calls are numerous and costly on account of this added expense and the increased call for Mother's Aid will necessitate the calling for a much larger appropriation for 1921.

Respectfully submitted,

HUGH CONNELL, *Chairman,*
ALBERT D. CATE, *Secretary,*
GEORGE ZWICKER.

SUPERINTENDENT OF SCHOOLS

Willard B. Atwell, 20 Stedman Street.

OFFICE HOURS

Mondays, 7 to 8 p. m. Tuesdays and Thursdays, 8 to 8.30 a. m. Wednesdays and Fridays, 4 to 5.30 p. m.

Office, Odd Fellows Building.

Telephone, Office, 122. Residence, 363-M.

Clerks, Gertrude McKenna, Telephone, 645-W. Margaret Anderson, Telephone 571-J. Hours, 8 to 12 and 1.30 to 5 on school days, and 8 to 12 on Saturday.

REGULAR MEETING OF SCHOOL COMMITTEE

Second and fourth Fridays of each month at 8 p. m., at Committee Rooms Odd Fellows Building.

Report of School Committee

Education is the great interest of the American people. The time is at hand when the rating of a town or city may justly be based upon its provisions for education and its willingness to pay for the proper maintenance of its schools.

The teacher must be taken for what he or she is—a public servant performing a task of unsurpassed importance to the nation and so entitled to an adequate compensation.

In times like these, when the very foundations of Government are being undermined by false ideals due to ignorance, more than ever must it become clear that education is the only effective weapon of defense, the only hope of building for the future.

Public education is a public responsibility and can be provided for in no other way than by public taxation. This is the problem that has confronted your School Committee this year. It has been very difficult to secure efficient teachers for the salaries we have been able to pay and in a number of instances, when looking for new teachers, we have been unable to meet the market owing to our inability to pay salaries to compete with other towns and cities of our size. The Committee has given a great deal of study to the question of salaries and recommend that the town appropriate sufficient money to make the maximum salaries of women teachers in the High School excepting women heads of departments, $1,550.00 and to the women teachers in the grades, $1,350.00.

INDUCEMENTS TO PROFESSIONAL ADVANCEMENT

Desiring to recognize professional growth by additional compensation, the Committee has adopted a set of regulations, effective in September 1920, whereby a teacher may participate and if her work is satisfactory, thereby receive additional compensation amounting to $75.00 per annum. To become eligible, a teacher must have had five years' experience, three of which shall have been continuous service in Wakefield.

The teachers are to submit in advance to the Superintendent for his approval outlines of special work or advanced study which they contemplate taking.

REPAIRS

While the Committee contemplated making many necessary repairs in a number of the School Buildings last year, this work had to be postponed on account of the expense entailed in installing a new heating and ventilating plant in the Warren Building, repairing heaters at the Franklin School, as well as unforeseen expenditures in the High School not covered by the special appropriation of last year. At least a part of these repairs will have to be done this year. New electric lights have been installed throughout the Warren School, and additions made to the lighting systems at the Franklin and Greenwood Schools.

The Committee gave special attention to the repairs at the High School as covered by the special appropriation of the town for that work. The School Building has been painted thoroughly inside and out, the floors have been replaced where necessary, new stair treads installed and an additional heater together with drinking fountains put in. All plaster has been repaired and new metal ceilings have been installed in the two large assembly halls and in a number of the class rooms. The building is now equipped with electric lights throughout. The teachers' room has been enlarged and individual metal lockers have have been furnished for each teacher. In the laboratories, it was necessary to replace a considerable amount of plaster. Both the chemical and physical laboratories have been thoroughly renovated, new cabinets installed and the experimental tables refinished. Necessary repairs to the roof and chimneys have also been attended to. The Paul Revere bell, which has not been in use for many years, has been put into service and rings mornings and at recess. The concrete walks around the school have been repaired.

While inadequate for ideal High School requirements, the Committee feel that the Building has been improved so far as it is possible until such time as we have our new High School Building which we hope, will be at no distant date. Should building conditions warrant and the price of labor and material decline to a point at or around pre-war prices, in all probability, the Building Committee will see their way clear to ask again for bids on the new School.

WOODVILLE SCHOOL

The new School in the Woodville district has been completed since our last report. The old Schoolhouse has been removed and the lot around the Building graded. Seven grades are being taught in this Building with a force of one principal and five teachers. The Building is proving very satisfactory and seems to meet all educational requirements.

MISCELLANEOUS EQUIPMENT

Provision has been made for additional equipment for the Manual Training Department at the Lincoln School, as also, apparatus for the physical and chemical laboratories in the High School.

RECOMMENDATIONS

We would recommend appropriations as follows:

Salaries	$162,300.00
Fuel	13,000.00
Contingent	15,000.00
Books and Supplies	7,500.00
Evening School	4,300.00
Practical Arts	1,000.00
Excess on Contract for coal	1,300.00
	$204,400.00

The tuitions and receipts are estimated to be $21,500.00.

J. LOWE McMAHON,
IDA FARR MILLER,
HARRY B. ALLMAN,
EVA GOWING RIPLEY,
JOHN B. SAWYER,
LEO A. ROGERS.

Report of Superintendent

To the School Committee:—

Ladies and Gentlemen:—I herewith submit my annual report of the School Department, at the same time making some recommendations which I think will be for the benefit of the pupils.

SUPPLY OF TEACHERS

We were very fortunate indeed in losing so few teachers during the summer vacation. I found it extremely difficult to fill the vacancies we did have. Many people have maintained that with a lull in business there would be a general turn towards teaching. This has not proved to be true. When a firm has to cut down the number of employees it usually retains the best and lets the poorest go. One man who works for a large corporation told me that it let the "dubs" go. Are these the girls that we want to teach our sons and daughters ?

The normal schools in Massachsusetts when filled to capacity cannot furnish the number of teachers necessary each year to fill the positions where new teachers are needed. What, then, is the result when the normal schools are only about three-fourths full? The colleges are not preparing the necessary number of teachers each year for secondary work. I do not see how there can possibly be a return to normal conditions under four or five years. The "law of supply and demand" seems still to be at work. In general those towns which pay the best salaries will get the best teachers. Towns and cities about us seem to be raising salaries and if we do not I plainly see that we shall find it hard to secure the kind of teachers that Wakefield wants. The best students fresh from normal school get very little less than the maximum we pay our grade teachers. The best college graduates taking positions immediately upon graduation receive about the maximum we pay our high school teachers. The outlook seems dark to me if we do not keep our salary schedule somewhere near the surrounding towns.

PROFESSIONAL IMPROVEMENT

At the last Town Meeting the Committee asked for enough money to be able to grant each teacher an increase of four hundred dollars in salary. The money was granted, and then a resolution was passed to the effect that the School Committtee should consider a merit system for increasing salaries. The Committee granted an increase of three hundred and fifty dollars after the Town Meeting, retaining the other fifty dollars while they studied the merit plan. After much careful study and research they were of the opinion that a merit system was not for the best interest of the schools. The results of the study and research convinced them that something should be held up before the teachers above the maximum salary. They have, therefore, devised a plan for granting an increase to those teachers who do advanced studying, and thus qualify themselves for better service. They do not claim that the scheme is ideal, but that it is really a step forward in recognizing professional growth in the teachers.

Below is the plan as finally adopted.

INDUCEMENTS TO PROFESSIONAL ADVANCEMENT

The School committee desires to recognize professional growth and power by additional compensation. To this end, therefore, it has adopted the following regulations, effective as from September 1920.

I. **Eligibility requirements:**

(a) First Special Increase.

1. 5 years experience in teaching, three of which shall have been continuous service in Wakefield.
2. Receiving the maximum salary.
3. Grade of at least "fair" in teaching efficiency.
4. At least six credits earned by advanced professional work as outlined in Section IV.

(b) Further Special Increases.

1. 3 years experience in teaching since receiving the last special increase.
2. A grade of at least "good" in teaching efficiency necessary for second and third increases.
3. A grade of at least "very good" in teaching efficiency necessary before receiving additional special increases after third increase.
4. At least six credits earned by advanced professional work since receiving last special increase.

II. **Procedure.**

(a) Teachers invited to submit in advance plans for special work or advanced study to Superintendent for approval.

(b) Teachers to file before October 1st report of work done during previous years for which in their judgment the Committee may be willing to allow credits.

(c) The Committee, on advice of Superintendent, may recommend special salary increases on or before December 1st of each year.

(d) Special salary increases to take effect January 1st following the Committee's recommendation.

III. **Amount of Special Increase.**

Special increase to be $75.00 per annum.

IV. **Methods of obtaining Credits.**

(a) Advanced study.

1. A resident study at approved college or university.
   Two credits for each one-half course of at least three hours per week.

2. A non-resident course conducted by the Massachusetts Board of Education.
   One credit for 20 class hours.

3. College or University summer schools.
   Three credits for 30 or more program hours.

4. Approved non-resident course of study.
   Credits according to character of institution and course of study.

5. Reading courses.
   Reading courses of four or more approved books, one credit. Maximum of two credits.

6. Thesis on some topic relating to school work based upon current educational literature and personal class room experience.
   One credit.

7. Accomplishments through miscellaneous activities such as travel, music, lecture courses, etc., which have the approval of the Committee.
   Maximum, two credits.

(b) Class room work.

1. Use of class room as laboratory for study of educational problems involving observation, study and report subject to the approval of the Committee.

Not more than three credits for one year's work or five credits for study of an important problem requiring not less than two year's work.

(c) Exceptional professional service.

The Committee may give credits or special increases for exceptional service to the school system which is readily recognized as surpassing the requirements outlined in Section 1 of this plan.

GENERAL REGULATIONS

1. The word "teacher" as used in this plan includes all persons in teaching or supervisory positions in the public schools of Wakefield.

2. Time spent on leave of absence for professional study shall count as part of the continuous service of the teacher.

3. The Committee, at its discretion, may permit leave of absence not exceeding one year for other puposes than professional study to count as part of the continuous service of the teacher.

4. Courses of study for elementary school teachers must be higher than high school grade and for high school teachers of a post graduate college grade, or a course adjudged by the Committee to be of a particular value to the teacher.

5. No credits will be allowed except on presentation of a passing mark obtained in the course or courses pursued.

6. Courses of study must, in general, relate to work of the teacher. A teacher desiring to obtain a credit in a reading course should prepare an abstract of each book read and after reasonable time, be prepared to take an examination upon any one of these books which the Superintendent of Schools may select. Two of the four books read must relate directly to class room work of the teacher.

7. Credits will not be given for miscellaneous activities such as travel, music, lecture courses, etc., unless of such a character as to relate to school work and to contribute to increased success of the class room.

AMERICANIZATION

We have in Wakefield a comparatively large number of people of foreign birth. We have been maintaining evening schools for their benefit, holding special classes in their club rooms and in the Woodville School besides the regular sessions in the High School. The classes in the High School are mainly for minors who are compelled by law to attend evening school. All the others are for adult men. We have been neglecting the women, but now I feel we should give them more special attention. To do this would require the appointment of someone who would take charge of and supervise the work. Perhaps it would be better to appoint some woman who is in sympathy with the alien and who could work

harmoniously with them. I recommend that the Committee do appoint a director of this work and that we begin active work in the fall.

The State feels an obligation in aiding the illiterate alien and has signified its willingness to co-operate with towns and cities by reimbursing them one-half of the expense involved. It would therefore cost this town about one thousand dollars next year to take up this phase of citizenship work.

INTELLIGENCE TESTS

Many educators realizing that all pupils are not receiving equal chances are trying to equalize them. In the past the dull and slow pupils have had most of the attention given them. Of course this has had to be somewhat at the expense of the brighter ones. The Army, in planning for promotions, gave tests for determining the intelligence of the men. School officials have seen merit in the idea and have applied it to school work. Psychologists have worked out tests which are applicable to all grades in the school system. They now advise grading pupils according to results of these intelligence tests, feeling that groups of us about the same mental ability would make better progress than groups which have been at school about the same length of time. Our present grouping is by chronological age rather than by mental age, and is fairly flexible as far as promotions go, but I believe we could save the brighter pupils more time and give them more preparation than we now do if we should group all pupils by ability as determined by psychological tests, and I recommend that we take up this matter for next year.

SPECIAL CLASS

A law recently passed by the General Court states that any town which has ten or more pupils three years or more mentally retarded shall maintain special classes for the instruction of these children. It now seems very probably that we shall have to organize at least one such class next year.

The matter of accommodations is a serious one with us as we have no available space in the centre of the town. In one or two schools away from the centre we have very small rooms that may be utilized temporarily, but we shall have to plan for space for such classes.

COURSES OF STUDY

The committees of teachers working on the courses of study have practically finished their work. The courses have not yet been formally presented to the School Committee but will be soon, and will be put in force within a very short time.

NEW HIGH SCHOOL

Probably it is not necessary to give any extended report upon the progress of the new High School Building. I will merely state that the Building Committee have procured plans and specifications, and that these were put out for

bids last summer. All the bids were so high that the Committee decided to wait for more propitious times before building. The plans and specifications are now in the vault in the Town Hall and as soon as building conditions seem to be right will be put again in the market for bids. I surely hope we may be able to begin operations this summer.

MILITARY DRILL

Military Drill has been in existance in the High School for about twenty-five years. We have given about one hour per week to it with fair results. Last spring the Committee voted to reorganize this department and petitioned the Government to establish a junior unit of the R. O. T. C. This petition was declined temporarily but the Government authorized us to work under General Orders No. 45. We have reorganized to conform with the requirements. The boys who elect drill receive diploma credit therefor, and anyone who elects drill must continue throughout the year in order to receive credit. The classes now meet three times each week instead of once and are required to take up the following subjects as a minimum:

A. Physical training, first aid to the injured, and elementary hygiene and sanitation.

B. Nomenclature and care of the rifle and equipment.

C. Infantry drill Regulations, close and extented order, to include the schools of the soldier, squad, and company.

D. Instruction in firing the rifle to include gallery practice.

The Government furnishes rifles, ammunition for target practice and an instructor without any expense. The town has furnished a bond for five thousand dollars for the safe return of all material issued for use in the school.

Sergeant Ernest Monroe has been detailed as instructor, and has worked very harmoniously with the faculty for the good of the boys. I am pleased to report my entire satisfaction with his attitude and his work. In the short time he has been here he has effected a great change in the boys.

We have been practically assured of recognition as a junior unit of the R. O. T. C. next year. This will mean that the Government will furnish not only equipment but clothing for the boys. The uniforms, including shoes, stockings, shirts, cap and overcoat may be worn at all times during school hours. This will mean no small item of expense saved the parents of the boys.

Promotions heretofore have been by election by the battalion, which means that not always has the best man for any given position been chosen. Promotions and appointments hereafter will be based entirely upon merit, subject to the approval of the Principal.

MISS M. ANNIE WARREN

During the past two or three years the school system has been saddened by the loss of teachers who had won a firm place in the hearts of pupils and townspeople alike.

Last spring Miss M. Annie Warren, principal of the Warren School died after a lingering illness.

Miss Warren had been a teacher in Wakefield for forty nine years, and was beloved by all who knew her. Her kindliness and gentleness left a lasting mark upon every boy and girl who attended her classes. It was a pleasure and an inspiration to work with her because of her personal qualities. I esteem it an honor to have known Miss Warren intimately.

Miss Warren was succeeded by Harold B. Arey from Bristol, Rhode Island, who is doing very good work.

SCHOOL SAVINGS BANKS

All the large buildings are now inculcating thrift and the idea of saving by maintaining School Savings Banks. The latest to take up the matter is the Warren School.

I find that there are two things which stimulate the children in putting away their pennies: saving for the future, and saving for some particular thing.

Below is a table giving the statistics for the year ending November 1920.

	Greenwood	*Lincoln*	*Franklin*	*Warren*	*Total*
Active Accounts.....	256	228	293	45	822
Amt. of Deposits.....	$1,604.71	$644.85	$1,319.36	$351.26	$3,920.18

Amt. of withdrawals..	$46.37	$327.46	$44.03	$13.58	$431.44
Amt. trans. to pupils accts. in Savings Bk.	$1,631.61	$245.58	$1,271.00	$285.96	$3,434.15
Bal. in custody of Principals.....	$81.03	$125.37	$101.06	$51.72	$358.19
No of Savings Bank Books issued	79	17	118	84	298

REPAIRS

Repairs during the past two or three years have been reduced to doing only what was absolutely necessary for the preservation of the buildings and the health of the children. Last summer we found it necessary to overhaul the heating and ventilating apparatus at the Warren School. We estimated about $1,500.00 for this but when the old furnaces were pulled down we found that all but one of them, there are six, were entirely unfit for use.

I believe that steam heat, both direct and indirect, is the proper method for heating buildings in tihs New England climate. We found from estimates that it would cost approximately $15,000.00 to make the change. As we did not feel warranted in asking the Town for such an amount at this time, we decided to replace the worn out furnaces. The costs of this work, plus changes necessary in the ventilating system, cost $4,800.00 instead of $1,500.00 as planned. Therefore we had to let many minor things go without any attempt at fixing them.

For some time past the heating and ventilating at the Lincoln School have been unsatisfactory. We secured expert advice as to means for remedying the defects. There were four definite suggestions: replace the steam engine for working the fan with an electric motor, rebuild the tops of the ventilating stacks, install a vacuum pump, and add more direct radiation.

We have substituted the electric motor, and from the results I believe it will be unnecessary to rebuild the tops of the ventilating stacks, as this has reme-

died the back drafts which we were getting. I believe we can get along comfortably for a while without making any further changes, but as soon as prices come down I believe we should install the vacuum pump and add more direct radiation to all rooms. We shall probably have to replace the boiler within a few years, although by using a vacuum system we would get results by using a much lower pressure. Unquestionably this will prolong the life of the boiler, which is a high pressure type.

Repairs at the High School have been postponed from time to time because it was hoped that a new building would soon be ready for use. As building has been delayed, because of high prices, the Committee felt that it was absolutely necessary to do considerable work during the summer.

The Town made an appropriation of $16,000.00 for this work. This amount proved too little by about $1,000.00. The building has been repainted inside and outside. All woodwork has been refinished, electric lights were installed throughout the building, metal ceilings placed in rooms one, ten, three and five, and in one portion of the upper corridor, and new lockers purchased for the use of the teachers.

There has never been any heat provided for the principal's office nor for the lunch counter. The furnaces already in use could spare no heat. Acting upon advice from experts we installed an additional furnace to take care of these rooms and also a portion of the lower corridor.

This work has made the old building presentable and a more pleasant place in which to work, but it has in no way lessened our need of the new building which I hope we may soon see under construction.

HEALTH CONDITIONS

Following this report may be found that of the School Physician. I call this to your attention. The School Physican and School Nurse have worked harmoniously together for the welfare of the children.

The following is a part of the report rendered by the School Nurse, giving somewhat in detail the nature of the work which she has to do:

"During January and February many children were absent on account of colds and lack of proper clothing owing to the severity of the winter. As in past years, I have been able to relieve the most needy cases by obtaining shoes and rubbers through the local organizations. In the spring months in which we look for contagious diseases among the school children, we were fortunate in having only a few cases of Scarlet Fever, four of which were in the Montrose District, one, a child under school age, died. The school was closed for one day and thoroughly fumigated. The Doctor and I visited every day alternately until the danger of contagion was past. We also had a number of cases of Measles in Greenwood and by closely observing the children were able to keep the school open and the disease confined to that district. In April the children were examined by the Physician and as usual notices sent home in regard to the condition of teeth and tonsils. The number of notices in re-

gard to enlarged and diseased tonsils are decreasing, which shows the seed of our work has taken root and it is very pleasing to the Doctor and myself. I took two children from the Franklin District to the Eye and Ear Infirmary and had their tonsils and adenoids removed, the Junior Red Cross treasurer supplying the funds as the case was a very deserving one and the children were in a very bad condition. One was a boy who was backward, had repeated the second grade and was not up with his class in the third. He now seems to be doing good work. This small fund which was on hand after the war activities ceased has been a real blessing in needy cases. Mr. Shea who is treasurer has given me the privilege of using it. We also had glasses for three children from the same fund. The teeth of the children are in poor condition and is a problem which I hope we will be able to solve in a way in which the work can be done at a reasonable fee. Poor teeth are the cause of a great many ills even in childhood. The following are the number of notices sent home in regard to defective teeth, examined by the School Physician in April:

	Teeth	*Tonsils*
High School	117	4
Lincoln School	85	40
Franklin School	75	22
Greenwood	36	37
Warren	59	20
Hamilton	18	11
Montrose	6	12
Hurd	18	6
Woodville	29	8
West Ward	4	8

The first aid kits in most of the schools have been of a great help. Children falling in the school yards, injuring themselves, can be given first aid. I was visiting the Warren School one day when a boy in the eighth grade dislocated his wrist. I was able to give him first aid treatment and when the doctor (Doctor Loughlin) arrived, he was very much pleased with the treatment he had received. He took the boy home, advising him to keep the bandage on for a few days. Many children fall scraping elbows and knees. I have treated forty seven of these cases, thus preventing infection."

CROWDED CONDITIONS

If the new building in Woodville had not been opened this fall it would have been impossible to care for the children in the Lincoln School on full time. I am afraid that the relief will be temporary for the school seems to be filling up very rapidly.

Greenwood is in bad shape as far as the first three grades are concerned. There are at present fifty-seven in the first; fifty-five in the second; and forty-seven in the third.

In the near future we shall have to consider extra accommodations there, probably by enlarging the present building or building a new one.

There is only one way to give immediate relief, and that is to divide the first two grades and have each section attend part time. Later a portable building may be placed in the school yard to take care of the overflow until such time as permanent quarters can be provided.

THE NEW WOODVILLE SCHOOL

When the contract was let to build the new Woodville School, it was agreed that the building should be ready for occupancy in January, 1920. After many vexing delays we finally entered at the beginning of the fall term.

In this new building we have the most up-to-date school house in town. Visitors have expressed a wish to take the building back into their home town.

A full description of the building has been given the public through the courtesy of the Daily Item, so I feel that it is not necessary at this time to repeat it in detail.

There are some features in this building which we should put into other schools as soon as we can. This is the only school that has electric clocks. Anyone who has had anything to do with schools knows of the difficulty with ordinary clocks. It is almost impossible to keep them together even though the janitor may set them every morning. The extreme changes in temperature, together with the dust and dirt, tend to interfere with the works. I wish we could install electric clocks in at least every large building.

The auditorium is conveniently located and is equipped not only for school use but also for a civic centre. Complete arrangements are installed both for a stereopticon and a moving picture machine. Both are of great value today for educational purposes when properly used.

The small emergency room, fitted and equipped for taking care of minor accidents and for the use of the School Nurse, is the only one in town. We should have such a room in every large school.

There are two play rooms in the basement, one for the boys and one for the girls. These adequately take care of those who are obliged to get to school before the doors are open. They also give a chance for complete relaxation during the recess period when the weather is too inclement to permit out-of-door recess.

I want to call attention especially to the possibility of an outdoor school room at this building. The supports of the ceiling of the auditorium are strong enough to allow us to use the roof over this part of the building for school room purposes. Very little work will have to be done to make this usable.

At present we have the first seven grades in attendance. Because the Lincoln building is so nearly crowded we shall have to add the eighth grades next year. It will be impossible to make room for the present seventh grade next fall at the Lincoln School. I am sure this will meet with approbation from the citi-

zens of the district, for I have had a petition from the scholars for this very thing.

Taking all in all the building was erected at a very opportune time.

MANUAL ARTS

We believe that boys prefer to do things that have some practical value, therefore, we have the boys do certain things that the School Department needs. The following tables give an idea of the kind of work the boys do after they have learned to use the different tools, and processes:

PRINTING

Quantity	*Nature of Work*	*Stock*	*Estimated Labor*	*Estimated Market Value*
100	Plant analysis blanks		$2.75	$2.75

Outside door of Manual Training room repaired.
Table for 1st grade room.

BOOKBINDING

353 volumes rebound:

Approximate cost of material	$17.60
Market value of rebinding	125.00

SEWING

The following is the report of the sewing teacher as presented.

"When sewing was first made a part of the course of study in the schools the aim was largely educational, a training of hand and eye with no very definite industrial value. Today the pendulum has swung far in the opposite direction and training of the child must equip her to meet the practical problems in the every day world and to develop the thought content in each lesson, as well as to train the pupils in industrial efficiency; also to call forth the best efforts from the class, thus making the subject an important factor in honesty of purpose.

School sewing in the past meant making models, but now the girls are interested in making articles of real value.

The following details are pursued, such as the training of the body to assume and keep correct position, training of the fingers to handle properly the implements used, training of the eyes to quick and accurate perception, also correct description by giving oral and written specifications of the work done Naturally all these details are preliminary to the actual work. Thoroughness in this is a safe-guard against awkwardness and mistakes that otherwise would waste time and material. The course progresses to practical applications in making wearing apparel and articles of household art. Incidentally the girls have kept the school flags in repair.

Crocheting has been introduced by having the girls crochet the lace and yokes for the garments that are being made in the class lesson.

The machine work not only includes stitching but the study of the machine in detail. It is my desire to have more work accomplished on the machine.

In order to do this it is necessary to have more machines. The machine work can progress but very slowly as we have but one machine for a class of twenty-eight pupils, whereas the number of machines should average one for each six girls.

In addition to the skill acquired in the making of clothing, this branch of domestic art developes the personal attributes, as perseverance, judgment and accuracy."

AGRICULTURE AND HOME ECONOMICS

"The agricultural and home economics work under the direction of the school department may be divided into four classes: Junior clubs; High School class work: School Garden Army and the Community Gardens.

The Pig Club has been dropped from the club list in town. Few children took interest in it and the results, unless the project is maintained year after year, are too uncertain. Much credit is due William H. Darling of Greenwood who has been a pig club member from the beginning and who has gone into the work rather extensively. He is the sole surviving member.

The remaining lines of work are as follows: garden, poultry, canning, home economics, and home handicraft. The clubs require practical manual labor, a record of the money involved, and a story of the member's experiences.

A comparative synopsis of the finished club work for the years 1918-1919 and 1919-1920 is given below. At the present time the outlook for 1921 is far less promising. It looks as though the home economics clubs would be barred from our schools so far as paid supervision is concerned. These, as the table shows, are among our most important clubs.

	1918 - 1919			1919 - 1920		
	No. of Pupils Finishing Work	Product	Value of Product	No. of Pupils Finishing Work	Product	Value of Product
Garden	8		$245.87	27		$939.68
Poultry	3		*	8		$912.78
Pig, spring	6	1779 lbs.	$302.43	0		*
Pig, brood sow	2	*	*	1	*	*
Home Handicraft				46		$470.50
Home Economics	54	72 garments	$216.00	112	75 garments	$375.00
		1226 loaves	$208.42		5202 loaves	$936.38
Canning	68	3369 quarts	$1,684.50	45	2460 quarts	$1,330.19
	141		$2,657.22	239		$4,964.53

*Not large enough to warrant inclusion.

The *Agricultural Class Work* in the High School is confined to one group of Juniors who are taking a course in horticulture. They are dealing almost entirely with fruits.

A resume of the more important achievements of club members (including High School pupils) during the past year follows:

Garden. A one hundred percent finish was made in this club. This was an extraordinary feat.

Three Wakefield boys, (Frederic Snyder, Edward McManamin and Edward Corcoran) won all the places on the Middlesex County vegetable judging team. This team lost the state championship by a fraction of one percent.

A collection of vegetables from several members won third place for towns at the New England States Fair.

A number of entries were made at the Waltham County Fair. Five prizes (one 1st, two 2nds and two 4ths) were secured.

There were 117 entries at the local exhibit in the Town Hall.

George Riley won the town championship.

Poultry. This was our second year's experience with a poultry judging team The competition at the Boston Poultry Show was by county teams. Philip Pasqualino and Everett N. Bennett won places on the Middlesex County team which consisted of six members. This team won third at the Boston Show, while Everett Bennett tied with one of his team-mates for sixth individual place. Ernest Banks of Greenwood took third prize on a feed hopper.

The poultry championship of the town went to Eleanor Crabiel of Greenwood. She stood second in the county and her record surpassed any previous record in the county.

Canning. Miss Doris Nelson had general supervision of the canning clubs. About 340 jars were exhibited in the town hall in September. Two prizes were won at the New England States Fair by individuals. Three were won at the Waltham County Fair.

The demonstration team was composed of Frances Munier, Alice Anderson and Elsie Nutile. They demonstrated at our fall exhibit.

The best all-round competitor in the clubs was Lillian Fisher of the High School.

Home Economics. As in canning, Miss Doris Nelson had general supervision of these clubs. At the Warren School, Miss Bessie David, and at the Greenwood School, Miss Josephine Rourke, took local charge of the clubs in home economics in those schools. The town championship in bread making was awarded to Eleanor Winkler.

The best garment maker was Hazel White.

The percent finish in this club was remarkable. One hundred and thirteen pupils started and only one failed to finish.

A team in biscuit making was formed which demonstrated at the spring exhibit. Virginia Ulrici and Gladys Dagnino were the Warren School girls who were on this team.

A bread-making team, composed of Helen Corbet, Nellie Sheehan and Catherine Donegan, demonstrated at a conference in Boston.

Home Handicraft. This was our first year in Home Handicraft Club work. Much of the work was very gratifying. The High School basketry club under the direction of Miss Isabelle M. Hirst and the Hurd School raffia club with Miss Grace A. Jenkins as leader did exceptionally good work under trying difficulties.

A demonstration team, composed of John Burgess and Edwin Ure of the Lincoln School, did excellent work.

John Burgess was awarded the county championship in this club and spent a week at the summer camp in Amherst. His workmanship and skill in woodworking were of high order.

This coming year looks rather badly for these clubs because of the lack of any settled policy of supervision for them. At least four of these clubs have been entirely dropped. I believe this to be a big mistake.

The most important forward step of the year was the formation of the High School Agricultural and Home Economics Club, more commonly known as the High School Achievement Club. This is a combination of all the achievement clubs in the High School into one central club. The club is the first of its kind in Massachusetts and its career is watched with much interest.

Myrton Fuller of the High School is the towns first representative on the County Junior Council at Waltham.

The School Garden Army carried on again. Harold Arey, Principal of the Warren School, took charge of this branch of the work. In a number of the school districts volunteer committees helped do this supervision work.

The number actually finishing their work, by schools, is herewith given. Greenwood 32, Lincoln 29, Montrose 26, Hurd 23, Franklin 19, Prospect Street 14 Warren 9, Woodville 3, Hamilton 3, Total 158. All schools, with the exception of the Warren, Hamilton and Prospect Street, show an increase over last year, while Greenwood was not included last year. The total gain is 28 gardens.

The Community Gardens did not make large returns to the workers this year. The weather was against the gardeners to a trying degree. Forty-seven reported an average net income of seventy-five cents. About $18.40 worth of produce was raised per plot as against $26.07 last year.

The various districts, with the approximate number of paid gardens on each, follows: Center 49, Woodville 42, Greenwood 41, North Ward 30, West Side 9. Total 171. Last year the total was 203."

CHANGES IN TEACHING FORCE

The following changes in the teaching force have taken place this year:

Resignations

HIGH SCHOOL

Anne Carroll, Science ..... To Newton
Grace Emerson, Mathematics ..... To Melrose
Hazel Andrews, History ..... To Lynn
Lucy Phillips, Science ..... To Webster

GRADES

Marion Ellis, Franklin, Grades 1-2-3 ..... Illness
Ruth Willey, Franklin, Grade 2 ..... To Boston
Mary L. Geary, Greenwood, Grade 5 ..... To Boston

Deceased

M. Annie Warren, Warren ..... Principal

Elections

HIGH SCHOOL

Lucy T. Phillips, Arlington ..... Science
Elise Brecker, Wareham ..... Science
Helen Crocker, Manchester, Mass ..... Mathematics

GRADES

Harold B. Arey, Bristol, R. I ..... Warren, Principal
Helen Vance ..... Hurd, Grades 5-6
Harriet E. Salmon, Newbury ..... Woodville, Grade 1
Elizabeth Guarnaccia, Quincy ..... Woodville, Grade 4
Grace Riley, Halifax, Mass ..... Woodville, Grade 5
George E. Hayes, Marlboro ..... Woodville, Principal
Mildred Stone, Weymouth ..... Warren, Grade 8

CONCLUSION

In conclusion I wish to express my gratitude to the people of Wakefield for the interest they take in the schools. Very few towns in the Commonwealth do more in proportion to their ability than do our citizens. It is a pleasure to work in such a community.

I also want to thank the School Committee for their hearty support, and the teachers and principals for their loyal co-operation.

Respectfully submitted,

WILLARD B. ATWELL.

Report of High School Principal

January 28, 1921.

Mr. W. B. Atwell, Superintendent of Schools,

Dear Sir:

Herewith is submitted the annual report of the Principal of the High School.

The enrollment at the opening of the school this year was as follows:

	Boys	*Girls*	*Total*
Post Graduates	3	2	5
Seniors	37	65	102
Juniors	59	65	124
Sophomores	61	88	149
Freshmen	84	85	169
	244	305	549

This shows a decrease of thirty-six pupils as compared with the enrollment of last year, the losses being in the Senior and Freshmen classes.

We were very fortunate in not losing more than three teachers from our faculty, but in two cases, before we could get the regular teachers, we had several substitutes, which has made it very hard for the pupils. In the case of the History teacher we had four substitutes before we procured a regular teacher.

We were very much pleased with the appearance of the building at the opening of school. I can see a marked difference in the attitude of the pupils. The majority appreciate what has been done and show their appreciation by the care they are taking of the building. They are doing much better work than they did previously and I believe it is due in part to the improved condition of the building. If the repairs of the building mean so much to the pupils, what would be the effect if we had a new building where we had plenty of room and facilities for doing the work as it should be done?

We have more active school organizations than we have had for some time. Last April the Dramatic Club gave a very successful play at the Princess Thentre.

Miss Sharkey wrote a play entitled "Tony the Mender" which was given by members of the school in connection with Better Speech Week. Several schools have presented this play during the year.

A Boys' Glee Club of forty members has been organized and is instructed by Mr. Fulton. The Club has appeared before the public on several occasions and did very creditable work.

A Girls' Glee Club is being organized and will be under the charge of Mr. Jones.

The High School Orchestra has furnished music on several occasions and their work is greatly appreciated.

When we consider that most of the rehearsing for these school activities must be done in the evening, or in some place outside of the school building, and under conditions that are not the most attractive, one wonders what could be done if we only had the proper facilities.

We have had a successful year in athletics. Most of the pupils of the three upper classes belong to the athletic association and pay five cents each week. We support baseball, football, hockey and track. Our great handicap is this: Most of our games are played on the common and we find it hard to pay espenses, for the public enjoys watching the various contests, but does not care to support them. We need an enclosed athletic field.

This year we have had Military Drill three times a week instead of once. The results have been very satisfactory. Sergeant Ernest M. Monroe, U. S. A., is in charge, and I feel sure that we will show such proficiency in military tactics at the end of the year that we will have a R. O .T. C. unit in our school next year.

Our greatest need at present is room, room to do experimental work. The Freshmen who take General Science have no opportunity to do experimental work, and that part of the work is the most important. The same holds true with Botany and Biology. These courses are greatly handicapped because they have no place to do experimental work. We lack nearly everything to make these courses of practical value to the pupils.

Last year we had the largest graduating class in the history of the school. Of the one hundred and nine graduates, sixty-seven took the college or general courses, and of these sixty-seven, forty-one pursued their education in higher institutions of learning. The following is a list of those pupils and the institutions they entered.

Selma Roach	Simmons College
Ruth Woodbury	Simmons College
Wilbur Batten	Bates College
Richard Clark	Bates College
Arthur Lyons	Boston College
Matthew Nash	M. I. T.
Charles Ford	M. I. T.
Dana Staples	M. I. T.
Franklin Tyzzer	M. I. T.
Gerald Tyzzer	Amherst Agricultural College
Ruth Maxim	Jackson College
Antonio Mezzacappa	Amherst College
Reuben Draper	New Hampshire State College
Joseph Taggart	New Hampshire State College
Carl Peterson	Norwich University
Thomas Dinan	Tufts

Sophie Kroll	Notre Dame
Margaret Walsh	Notre Dame
Thomas Lally	B. U. Business Administration
Oliver Quimby	B. U. Business Administration
William Wallace	B. U. Business Administration
Gertrude Hutchinson	B. U. Secretarial Course
Margaret Howland	B. U. Secretarial Course
Esther Tyler	N. E. Conservatory of Muisc
Dorothy Taylor	Emerson College of Oratory
Frederick Snyder	Worcester Academy
Ernest Frizzell	Dean Academy
Edmund Dagnino	Dean Academy
Eleanor Abbott	Lassell Seminary
Emily Boody	Northfield Seminary
Mildred Willey	Salem Normal School
Winifred Lenoir	Salem Normal School
Hattie Moore	Salem Normal School
Sybil Smith	Salem Normal School
Katharine Goodwin	Salem Normal School
Grace Crosby	Framingham Normal
Marion Dunham	Mass. Normal Art
Warren Buckley	Mass. Normal Art
Arthur Anderson	Lowell Textile School
Kathleen Carter	Mrs. Clark's School
Jeannette Stewart	Mrs. Clark's School
John Reid	Bentley's School of Finance
Gordon Crandall	Bentley's School of Finance

I wish at this time to express my appreciation of the loyalty of my co-workers and the hearty co-operation which I have received from you and the School Committee.

Respectfully submitted,

CHARLES J. PETERSON,

Principal.

Graduation Exercises Wakefield High School Class of 1920

Town Hall, Thursday, June Twenty-Fourth, Eight-Fifteen o'clock

PROGRAM

Overture and March

Chorus—"When the Flag Goes By" ..... *Nevin*

Declamation—"Our Debt to the Pilgrim" ..... *Roosevelt*
Charles Butler Ford

Chorus—"The Breaking Waves Dashed High" ..... *Hemans-Brown*

Oration—(Salutatory Rank)—"Our Industrial Situation"
Franklin Gowen Tyzzer
Read by John Arthur Reid

Chorus—"Oh! Italia, Italia, Beloved" ..... *Donizetti*

Oration—(Honor Part)—"The Italian in America"
Antonio Libro Mezzacappa

Recitation—"My Country First"
Helen Recardo Arnold

Chorus—"A Night in June" ..... *Targett*

Oration—"The Mayflower Compact"

MOTTO—Our Aim, Success—Our Hope, to Win

CLASS SONG

Emily S. Boody

Our crossroads we have reached tonight;
This point together we have won.
  But now through many a varied way,
  With higher ideals day by day,
We'll show the world what we have done.
So Nineteen-twenty's class will strive
  With motives always high and pure
To hold the standards we have set,
    Ever loyal till success is sure.

The knowledge we have worked to gain
Has blazed the path our footsteps sought,
  And as we other tasks must do
  We still will hold in memory true
The ideals that our teachers taught.
"Our aim; success—our hope, to win,"
  Our chosen motto spurs us on;
And as we press on toward the goal
  May we hold it high till victory's won.

Report of School Physician

The Health conditions in general for the year have been good, and there has not been any epidemic of consequence, though there has been about the usual amount of contagious disease. The difficulty in controling measles was well illustrated in one of our schools. At a time when no cases were present in town a child visited Boston and eleven days later came down with measles in school. It happened that in that room all the pupils but five or six were immune. Those few were carefully watched and the teacher and the parents were instructed to be on the lookout for any symptoms of illness. No one developed the disease and we were just congratulating ourselves, when measles broke out in several families in the neighborhood. These children with the consent of their parents had been in the house to play with the child who had the measles.

Mumps and chicken pox are rarely reported to the Board of Health because no physician is called, and knowledge of such cases is usually gained from the neighbor's children in school, or the child is discovered in school with symptoms of the disease. Under these conditions spread of the disease is inevitable. Considerable educational work is needed along these lines.

The usual examination of children has been made and the first grade weighed and measured in the fall and in the spring.

Parents as a rule are willing to co-operate by following suggestions as to remediable defects in their children. With the assistance of the School Nurse, constant attention is directed to the detection and treatment of parasitic and contagious skin diseases. One factor not within our control is the constant reinfection from children not in school in those families where such diseases abound, and this makes complete eradication impossible.

A study of the weight and measurements of the first grade pupils shows that the average at one School is about one and one-half inches short and about two pounds underweight. However, their gain for the year was up to the average, while a first grade in another school in which pupils were the tallest and heaviest gained the least both in height and weight. Of course the number in a given class is too small to make the deductions of value. Taking the whole first grade, the average of height and weight corresponds pretty closely to the standard of the National Child Health Organization which is endorsed by the State Board of Health.

As in previous years, the School Nurse, the Principals, and the teachers have given their hearty co-operation. Attention should again be called to the fact that the teachers are the outpost sentinels in the detection of disease, for they obtain the first information of a pupil's absence and usually can find out whether he is ill and whether a physician has been called.

Respectfully submitted,

CHARLES E. MONTAGUE, M. D.

Report of Attendance Officer and Census Enumerator

Mr. W. B. Atwell, Superintendent,

Dear Sir:

I hereby submit the following report for the year ending December 31, 1920.

I have investigated the following cases:

Sickness	56
Truancy	77
Tardy	6
Kept out by parents	67
Lack of shoes and clothing	17
Found on street, taken to school	4
Found at home, taken to school	3
Found on street, taken home	2
Misdemeanors on school grounds	5
New pupils placed in school	24
Pupils left school	25
Schools visited	15
Suspensions	11
Taken to court—(convicted)	1
Home employment certificates	3
Employment certificates	7
Factories and stores visited	9
Bureau of Immigration	1
	333

Besides investigating the above cases, I also canvassed the town for the census of pupils between five and sixteen years of age.

Respectfully submitted,

ALBERT D. CATE,

Attendance Officer.

APPENDIX A

Population census, 1920	13,025
Average Membership, ending June, 1920	2,508.56
Average Membership, ending June, 1919	2,379.31
Increase	129.25
Total Membership, 1920	2,842
Total Membership, 1919	2,736
Average Attendance, 1920	2,327.08
Average Attendance, 1919	2,221.10
Per cent of Attendance, 1920	92.36
Per cent of Attendance, 1919	93.35
Length of School Year, September, 1919 to June, 1920	39 weeks
Days lost, stormy weather, holdiays, etc., High	16 days
Elementary	17 days
Actual length of school year, High	35 weeks, 5 days
Elementary	35 weeks, 3 days
Special teachers employed	5
Regular teaching positions	88
Total teaching positions	93

DAY SCHOOLS

Cost per pupil for instruction and maintenance, based on average membership:

High School	$89.31
Elementary School	49.84
Day Schools	58.31

REVENUE ACCOUNTS

The surplus revenue at the close of the year, as shown by the balance sheet, is $20,898.92, a loss of $21,054.47 from 1919.

RECOMMENDATIONS

In view of the increased calls for money of many of the departments for the ensuing year, I would recommend that the town appropriate from its surplus revenue the sum of $20,000.00.

The accounts of the Treasurer have been examined and agree with the Accountant's books, cash balances have been verified by bank statements. All permanent and temporary loans cancelled during the year by the Treasurer have been examined and found as reported.

I take this opportunity to thank the Honorable Board of Selectmen, and all other town officials who have co-operated and assisted in the work of this department.

Respectfully submitted,

HARRY A. SIMONDS,

Town Accountant.
